Chongqing Huiju Educational Equipment Group

Shaping Happy Learning Environments Worldwide

Company Milestones

27^{years}

27 years of
glorious history

Establishment
Founded and began our
journey in educational
equipment manufacturing.

1998

1998

Expansion
Renamed Chongqing Jooboo
Educational Equipment Co., Ltd.,
launched independent R&D
and manufacturing.

2011

Expansion
Renamed Chongqing Jubo
Educational Equipment Co., Ltd.,
launched independent R&D
and manufacturing.

2018

Global Vision
Formed strategic partnerships with
Italian and Spanish teams,
creating a global R&D network
across three countries and four cities.

2021

Smart Manufacturing
Launched China's first Industry
4.0 smart manufacturing
base in Chongqing.

2023

Gathering Strength
Anhui smart manufacturing
base commenced operation,
further expanding intelligent
production capability.

Anhui Quanjiao Base

Launched in 2023, the Anhui Production Base spans 124,000 sqm and houses nearly 200 world-class machines. With multiple proprietary smart production lines, it achieves over 80% automation and delivers more than 500,000 sets of school furniture annually. As an Industry 4.0 benchmark factory, it sets new standards for intelligent manufacturing in the educational equipment sector. Strategically located in Quanjiao, Chuzhou, Anhui, the base is 300 km from Shanghai Port and 500 km from Ningbo Port, enabling fast global delivery.

Chongqing Flagship Base

The Chongqing Production Base covers 69,000 sqm with an annual output exceeding 500,000 sets of school furniture. As the industry's first Industry 4.0 smart manufacturing factory, it combines advanced processes and intelligent technologies to ensure efficiency, stability, and premium quality. Its strategic location — just 50 km from Chongqing Port and 20 km from the China-Europe Railway Express terminal — makes it a vital hub for both domestic distribution and international trade.

Smart Panel Processing Center

Equipped with industry-leading German HOMAG technology, including China's only panel saw, dual edge-banding machines, and a CNC six-sided drilling array. Multi-surface drilling is completed in one pass for unmatched precision and efficiency.

✓ 27+ Years of Expertise

Since 1998, we have specialized in educational furniture, serving 10,000+ schools and 10 million+ students.

✓ Fast Response & Multilingual Support

Professional team ready to support your project with quick quoting, technical drawings, and tailored service.

✓ ISO-Certified Quality System

Strict quality control processes guarantee safe, durable, and internationally compliant products.

✓ Global Design Network

R&D teams in China, Spain & Italy deliver innovative designs.

✓ China's Largest & Most Advanced Manufacturer

Two smart factories with automated and digitalized production lines ensure stable quality and high efficiency.

✓ Factory-Direct Pricing & Global Delivery

Competitive pricing without middlemen, with efficient logistics support for overseas partners.

✓ Full Product Range, Flexible Customization

From basic desks to smart classrooms and dormitory furniture — we cover all educational space needs.

✓ OEM / ODM Flexibility

Customized size, color, branding, and packaging.

Why Choose Us

Core advantage of Our Products

Desktop with PP Injection – Molded Banding

Ensures durable, impact-resistant edges for long-lasting use.

Ergonomic Design

Supports healthy posture and long-term comfort

Safety-Oriented

Anti-tip, non-slip, rounded corners

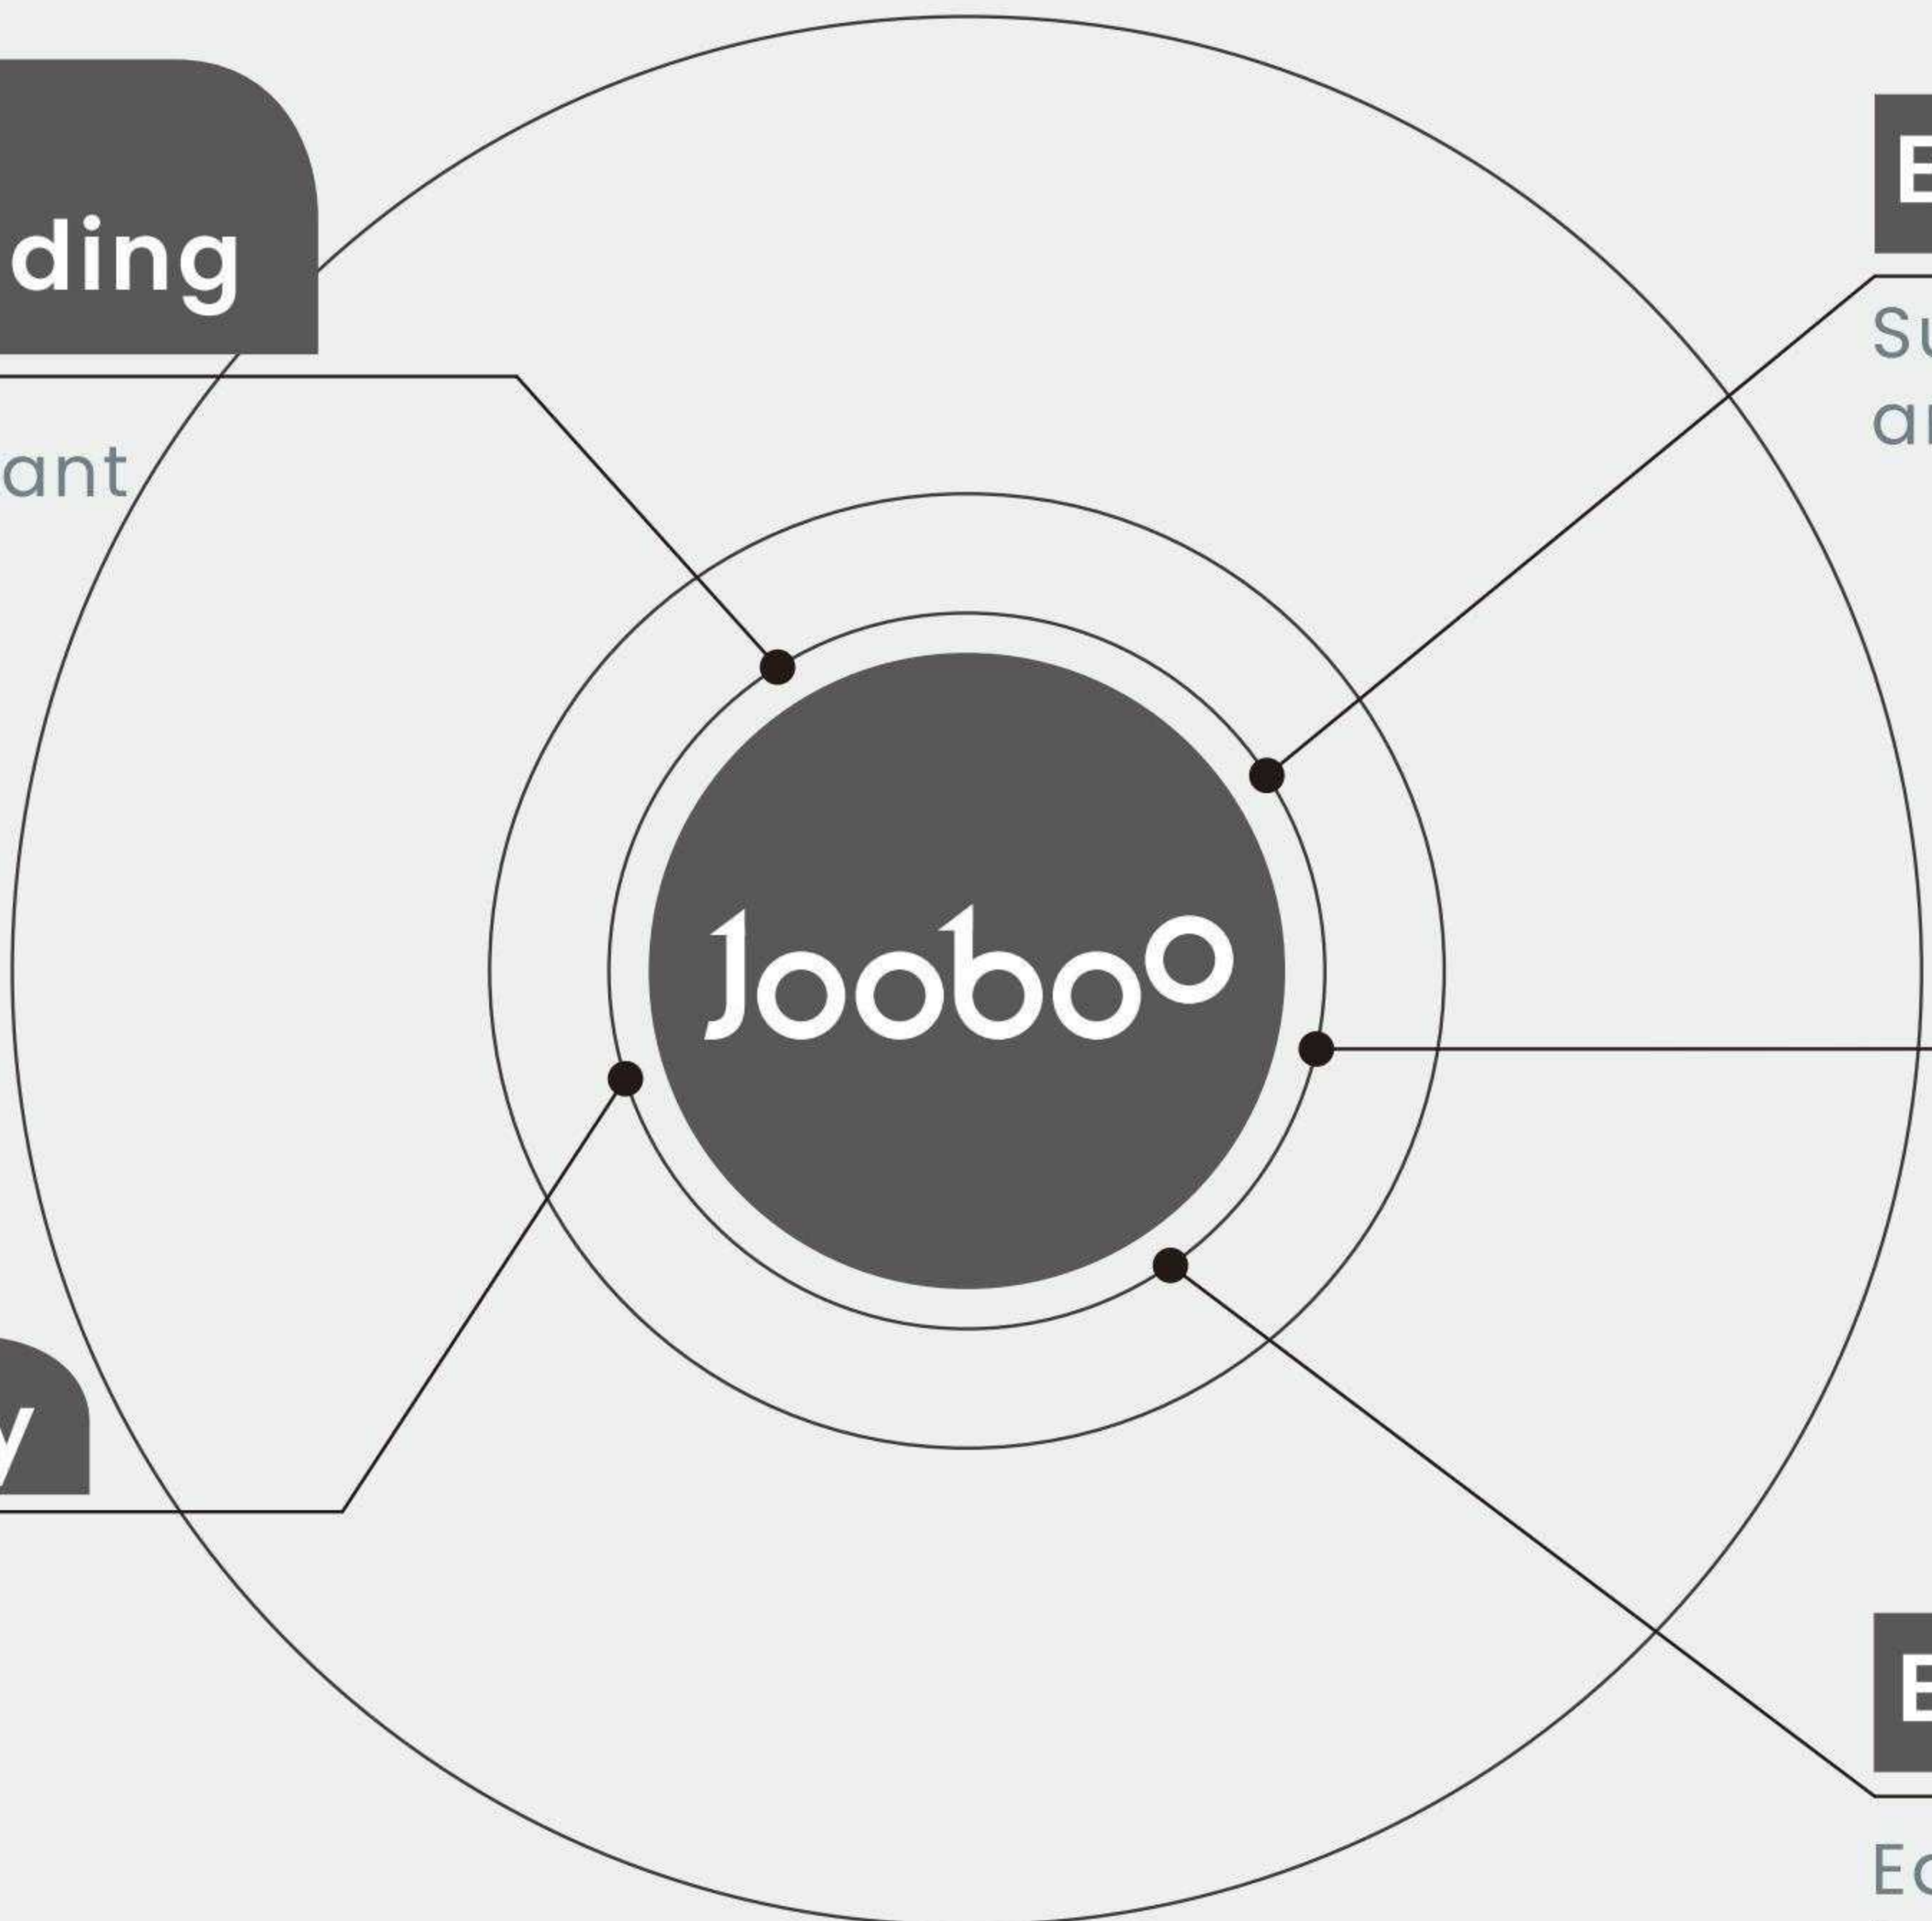

Durable & Eco-Friendly

Robust steel-wood structure, eco-friendly

Easy Maintenance

Easy to clean, low maintenance

Moveable Desks & Chairs

Flexible. Functional. Easy to Move

LT Series

Student Desk & Chair

Single Desk Model:LT0101

Size: 650×450×750 mm/25.59×17.71×29.52 in

Chair Model:LT0401

Size: 435×418mm/17.13×16.46 in
Seat Height: 420mm/16.53in

Two-Seater Desk:LT0201

Size:1210×450×760 mm/47.63×17.71×29.92 in

Three-Seater Desk:LT0301

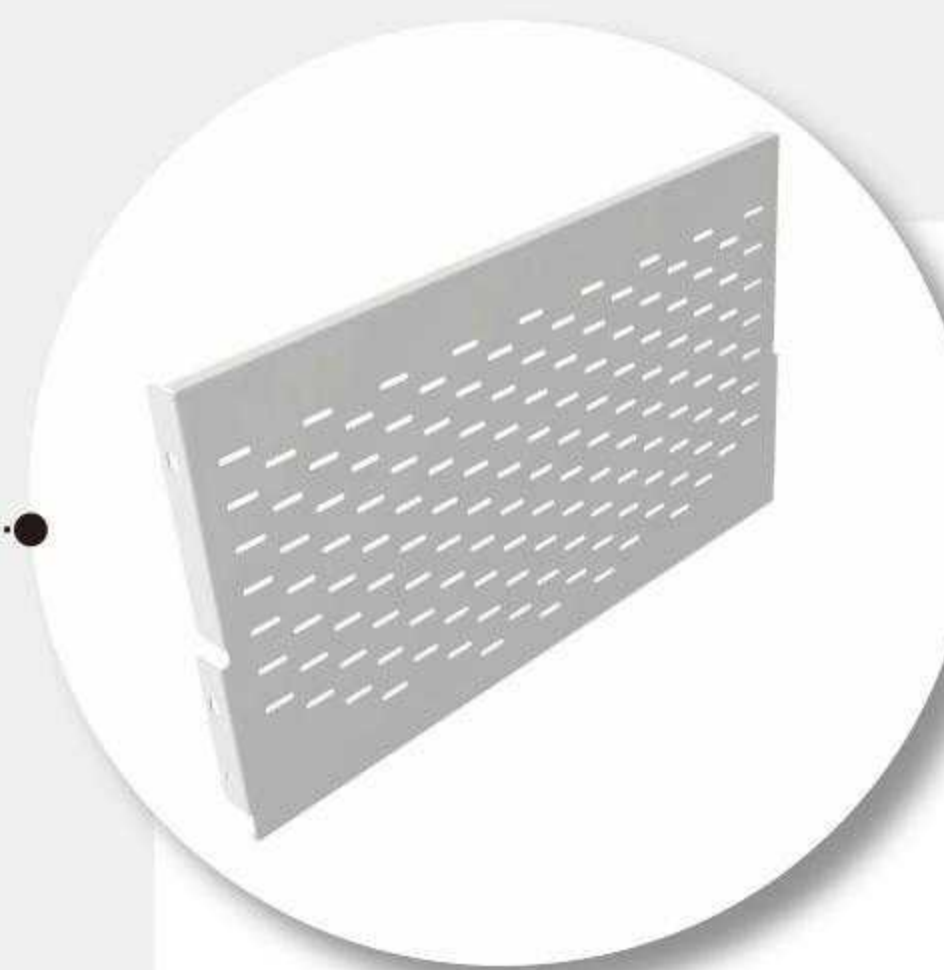

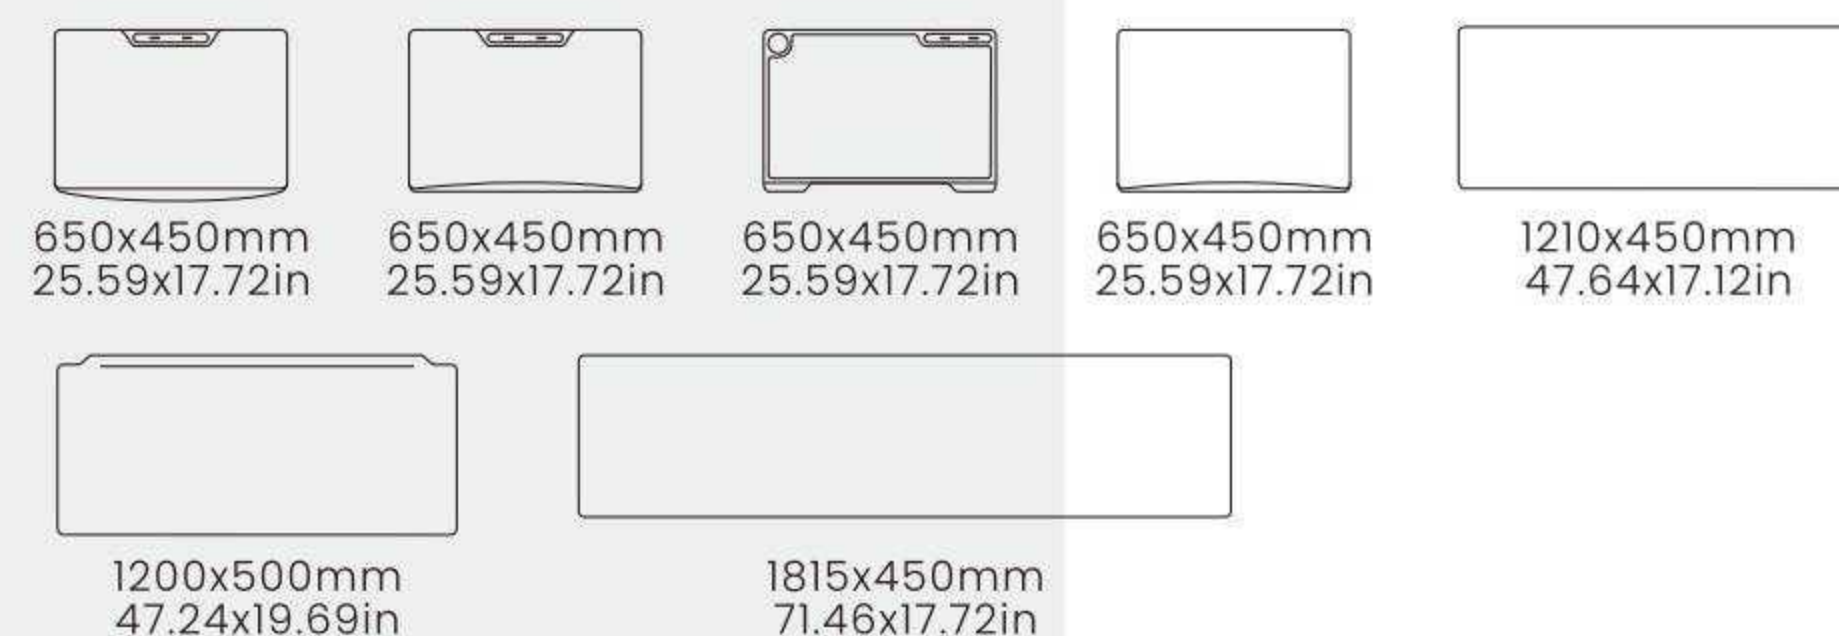

Size:1815×450×760 mm/71.45×17.71×29.92 in

Multiple Desk Options

Single, double, and triple desks available for flexible classroom layouts.

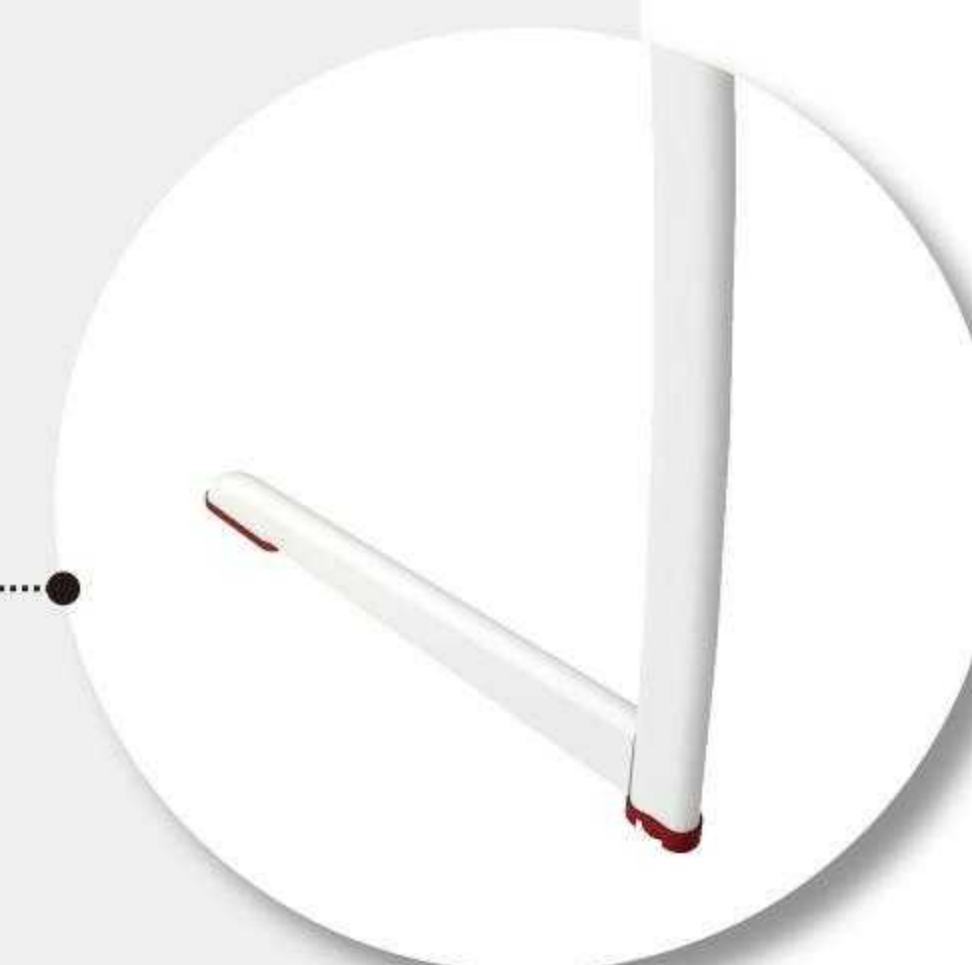

Desk front panel

Protects student privacy and enhances focus.

Multiple Chairs Styles

Offers various chair designs to suit different classroom setups and teaching styles.

L-Shaped Leg Design

Increases legroom while maintaining desk stability.

NB Series

Student Desk & Chair

Single Desk Model:NB0101

Size: 710×470×760 mm/27.95×18.5×29.92 in

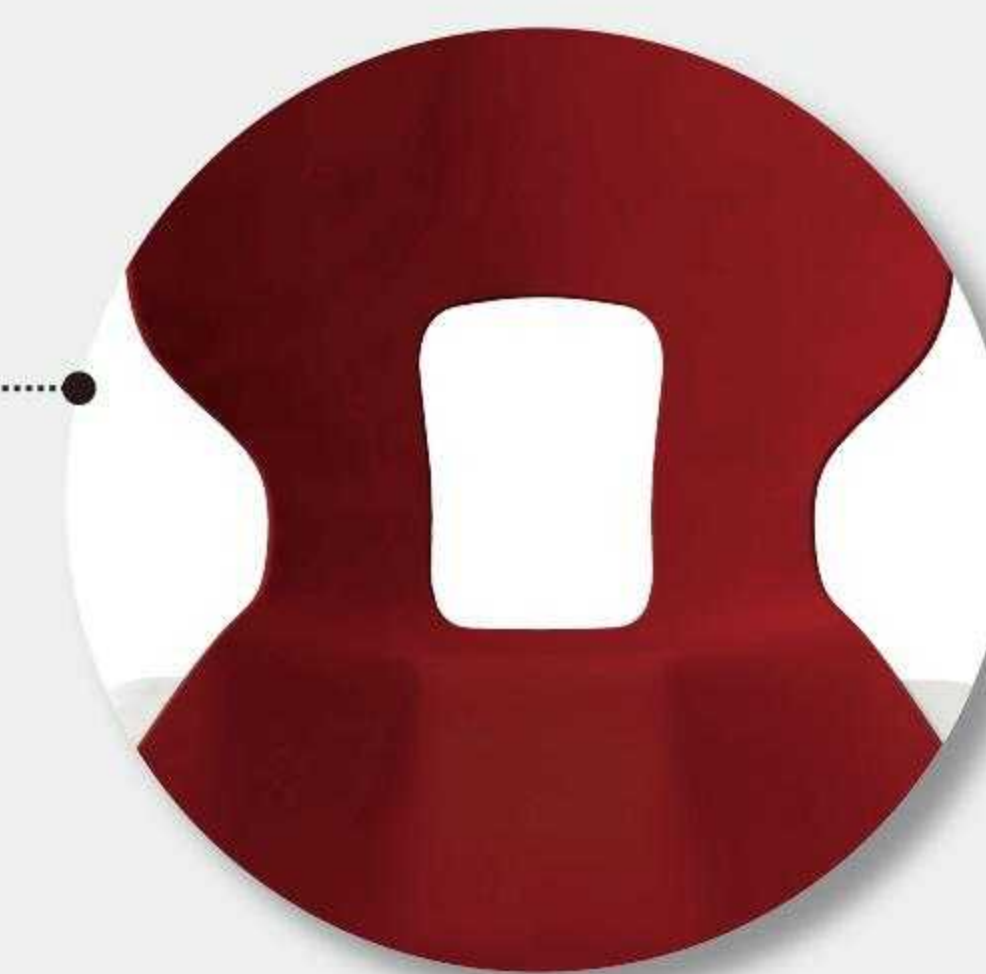

Chair Model:NB0401

Size: 400×410mm/15.75×16.14in
Seat Height : 440mm/17.32 in

Robust Steel Frame

Ø25mm × 1.5mm Round Tubing for Long-lasting Stability

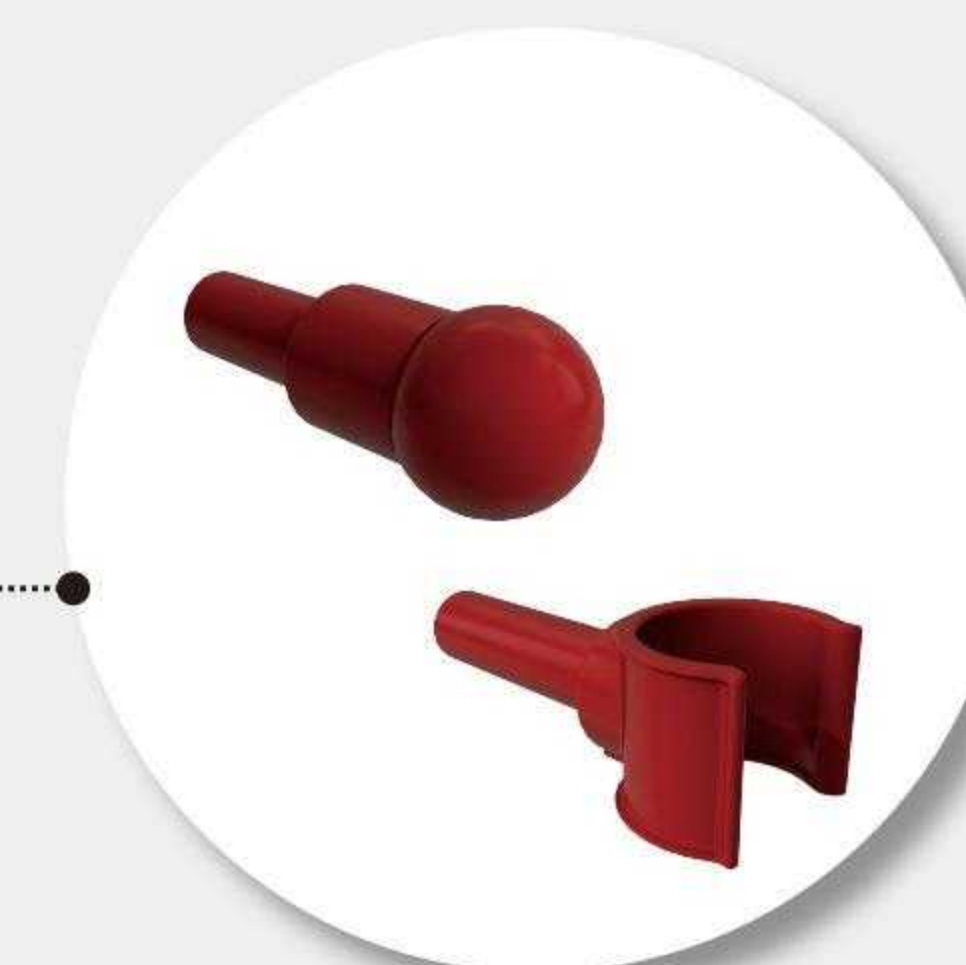

Ventilated Chair Back

Improves airflow and comfort for long seating sessions.

A-Shaped Desk Legs

Ensures desk stability while maximizing legroom.

Side Hooks

Convenient hooks for backpacks and bags to keep classrooms tidy.

TL Series

Student Desk & Chair

Single Desk Model: TL0101

Size: 650×450×760 mm / 25.59×17.71×29.92 in

Chair Model: TL0402

Single Desk Size: 465×445mm / 18.3×17.51 in
Seat Height: 440mm / 17.32 in

Tow-seater Desk Model: TL0201

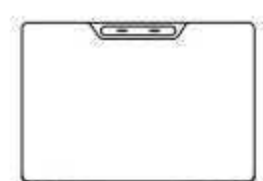

Size: 1200×500×760mm / 47.24×19.68×29.92 in

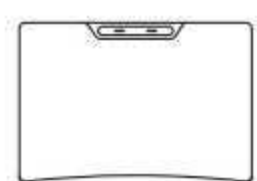

Multiple Desk Options

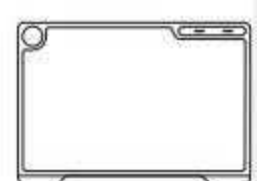

Single and two-seater desks available to suit different classroom layouts.

650x450mm
25.59x17.72in

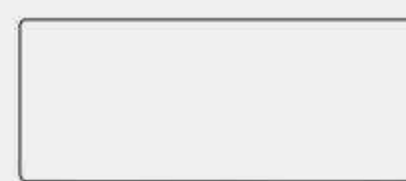

650x450mm
25.59x17.72in

1200x500mm
47.24x19.69in

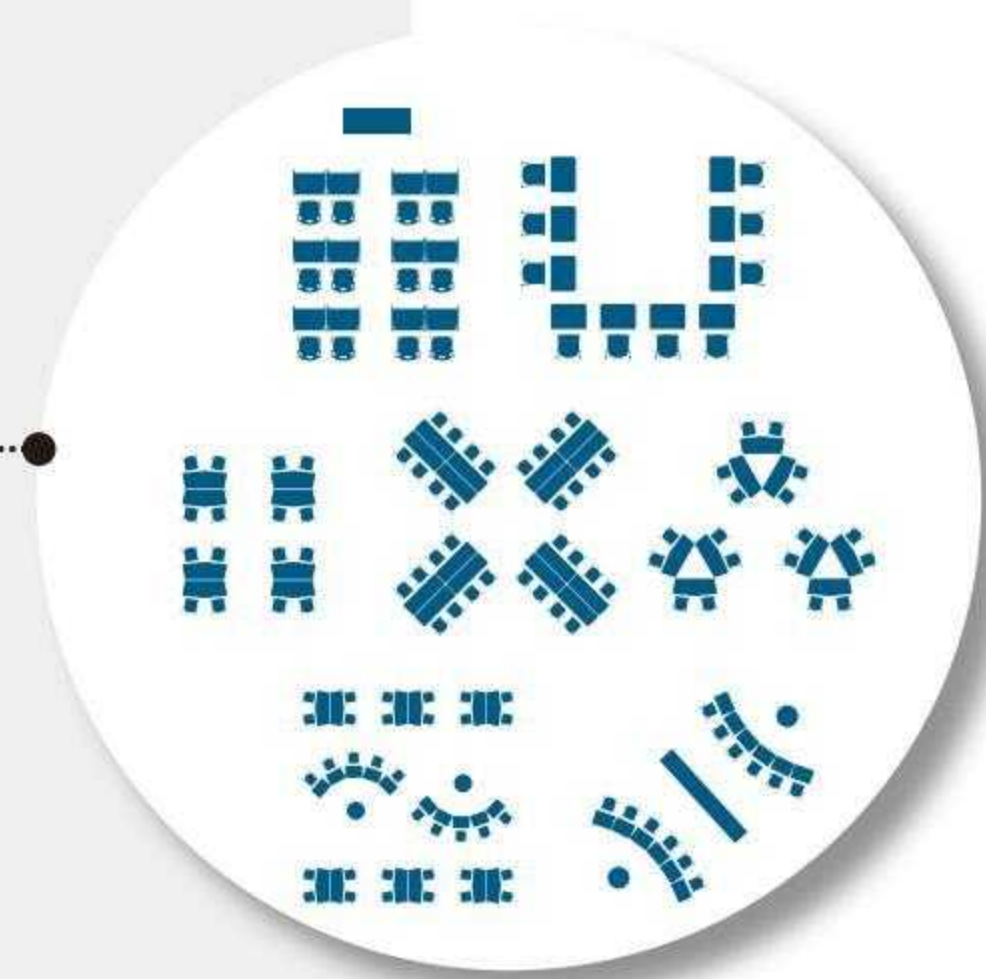

1815x450mm
71.46x17.72in

Adaptive Backrest

Chair backrest automatically adjusts to the student's posture, providing full support and comfort.

Modular Arrangement

Desks and chairs can be combined and arranged in various layouts for collaborative learning.

Optional Silent Casters

For quick and easy movement and classroom rearrangement

HW Series

Student Desk & Chair

Single Desk Model:HW0101

Size: 650×450×760 mm/25.59×17.71×29.92 in

Chair Model:LT0402

Size: 445x470 mm/17.52×18.5 in
Seat Height: 420mm/16.53in

Two-seater Desk Model:HW0201

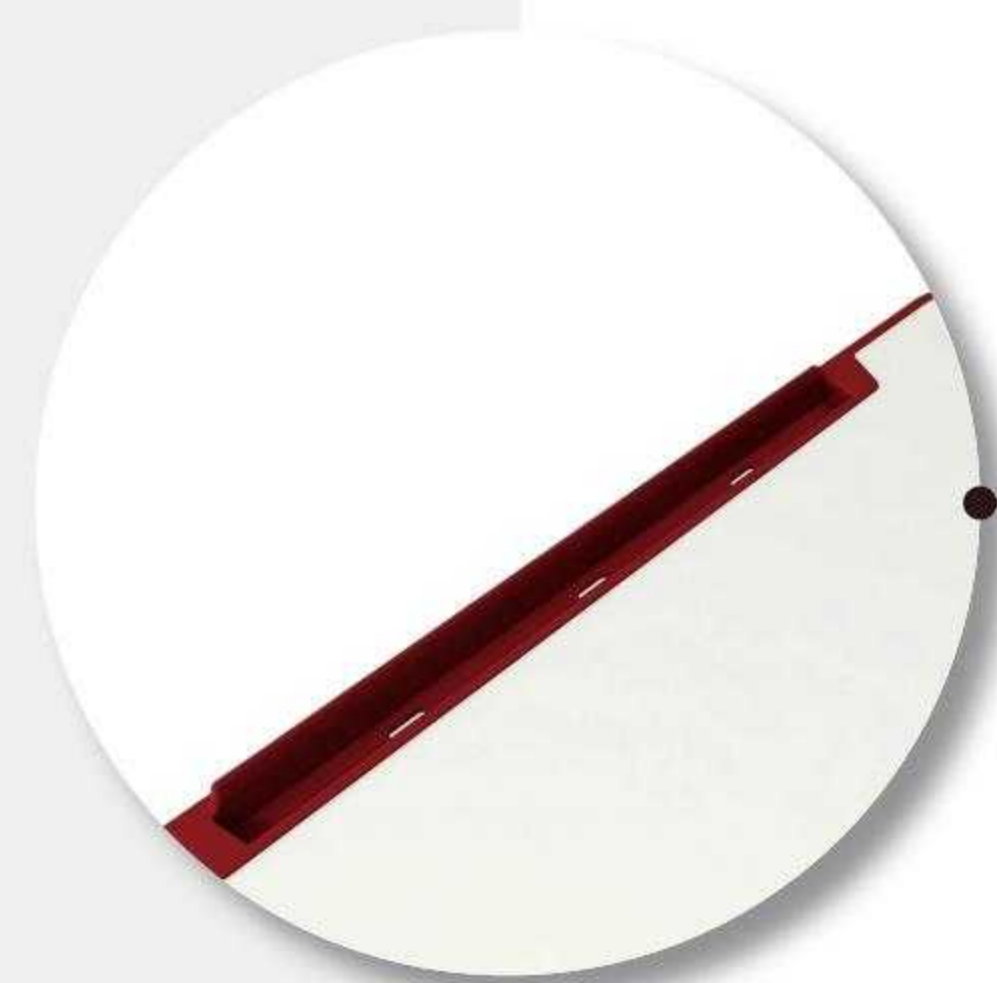

Size:1200×500×760 mm/47.64 × 17.72 × 29.92 in

Three-seater Desk Model:HW0301

Size:1815×450×760mm/71.46×17.72×29.92in

Single, two-, or three-seater desk options

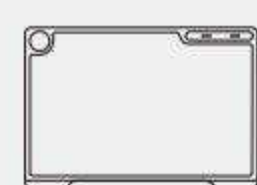

Single, double, and triple desks available for flexible classroom layouts.

1200x500mm
47.24x19.69in

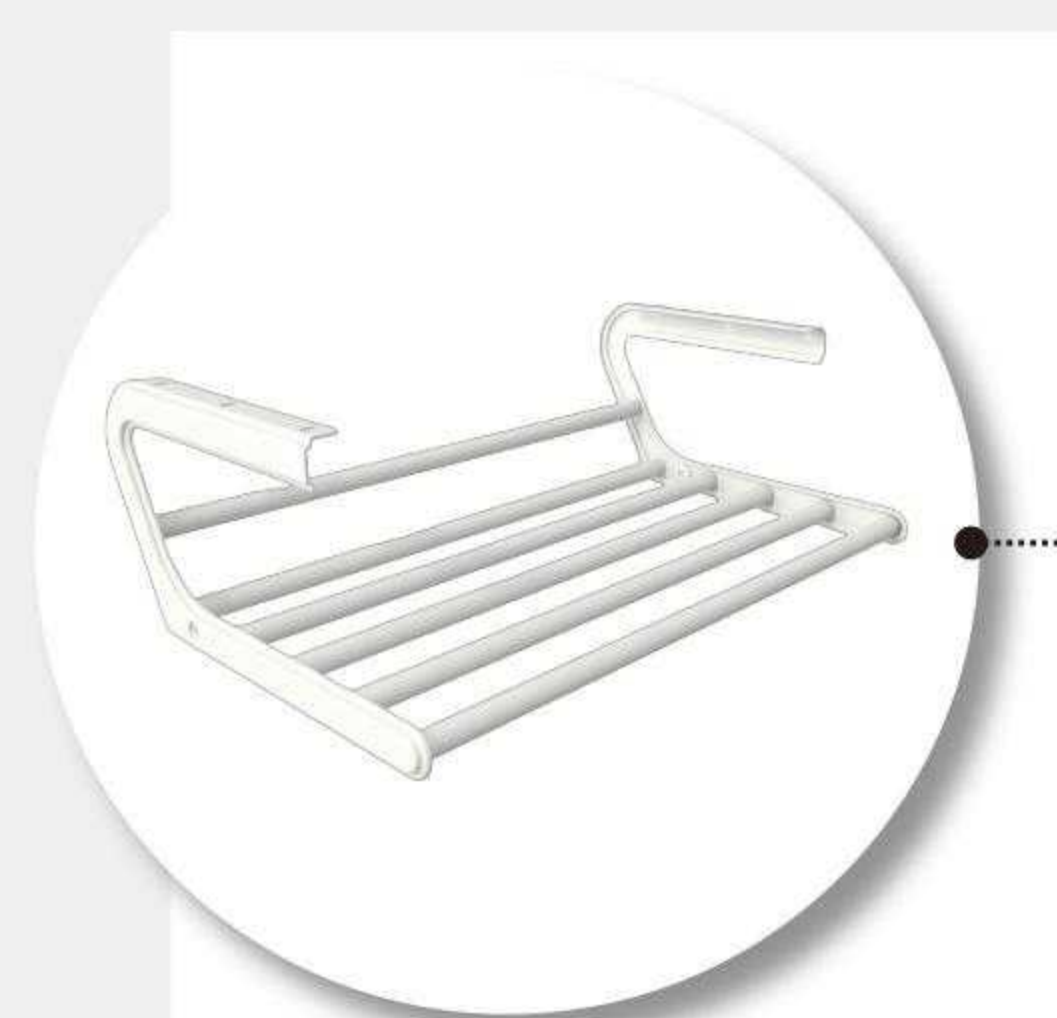

1815x450mm
71.46x17.72in

Steel or wooden front panels

Provide privacy protection for students.

Spacious desk drawer

Large capacity for books and personal items.

L-shaped desk legs

Increase legroom while ensuring desk stability.

BL Series

Student Desk & Chair

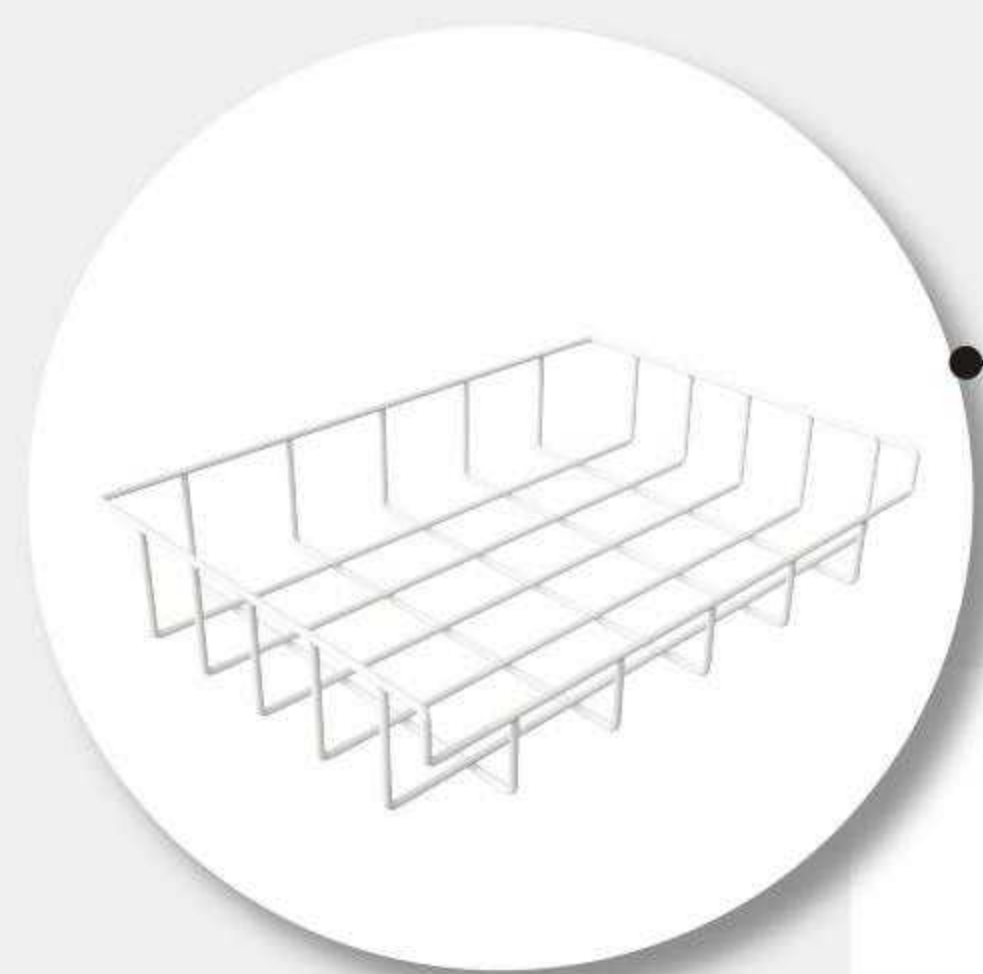

Single Desk Model: BL0103

Size: 650×450×670-790 mm / 25.6×17.7×26.4-31.1 in

Chair Model: BL0403B

Size: 420×400mm / 16.5×15.7in
Seat Height : 380-440mm / 15.0-17.3 in

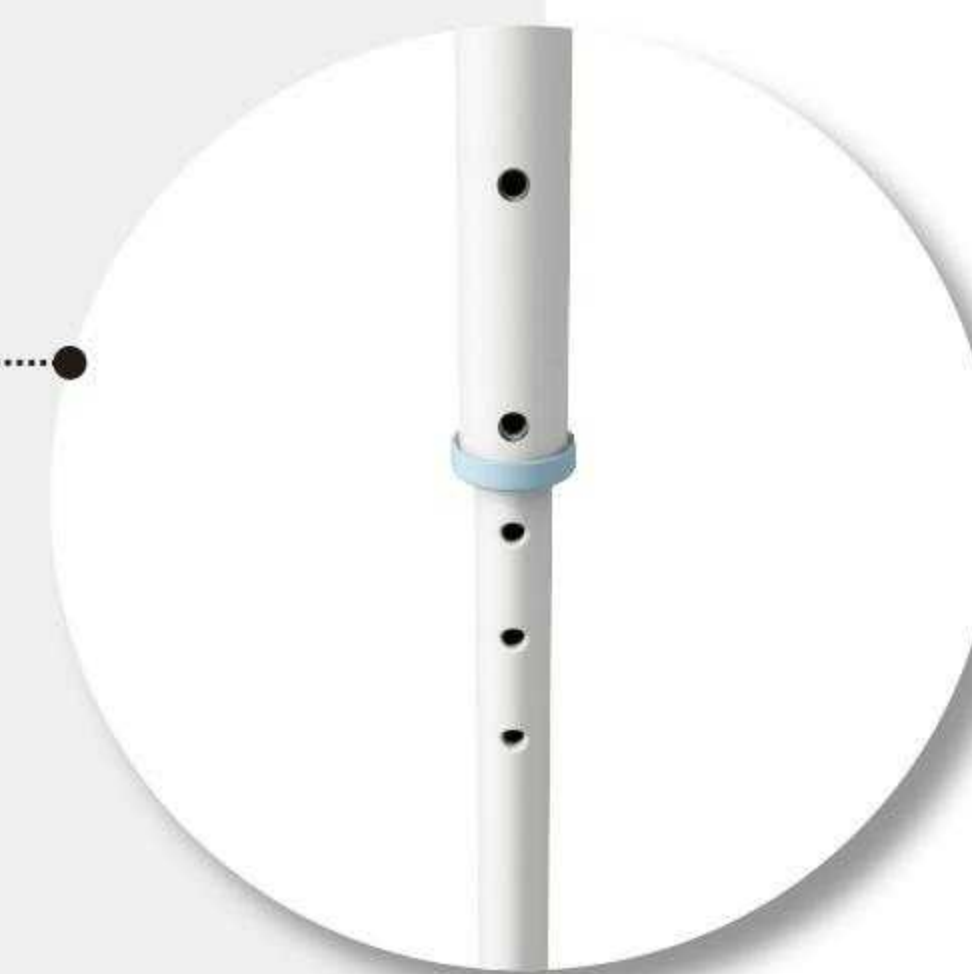

Optional Chair Storage Basket

High-quality 3.5mm cold-drawn steel wire basket, bent and welded, securely attached under the chair with screws for convenient storage.

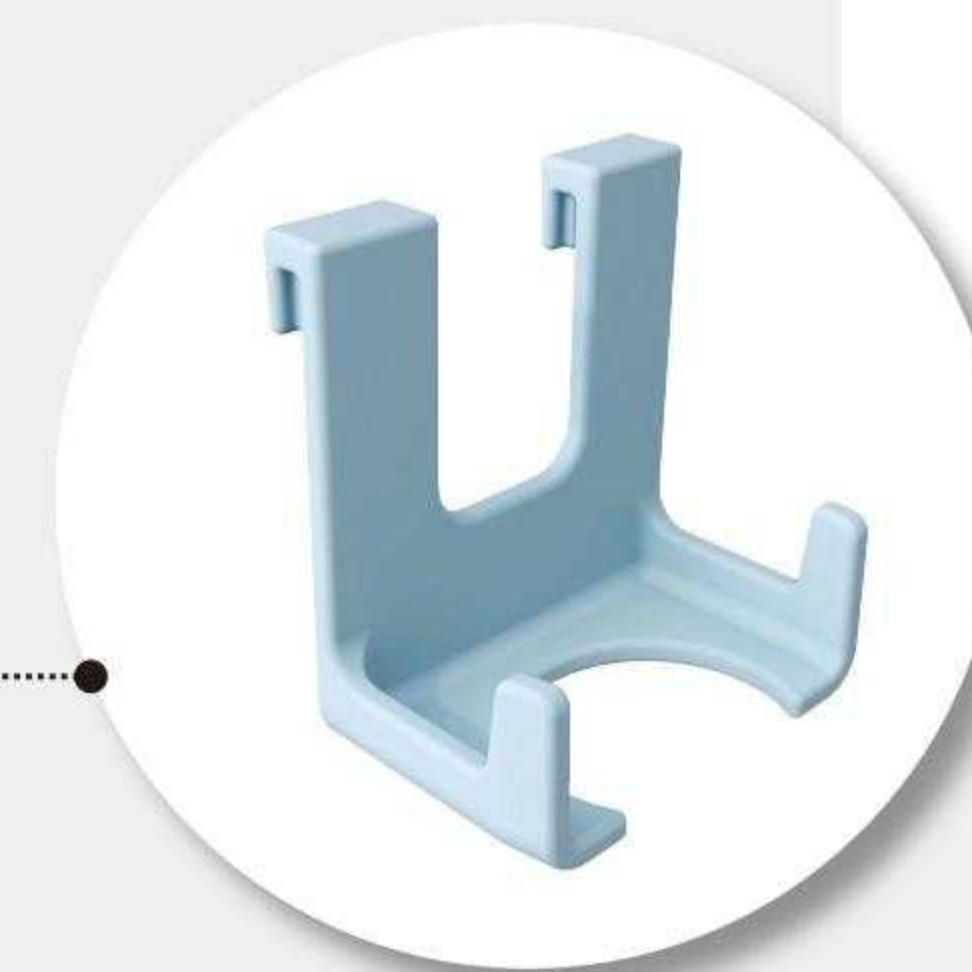

Desk Drawer

4mm thick PP desk drawer, corrosion-resistant and anti-aging, smooth surface with recessed front and storage slots.

Multiple Height Adjustment

Fixed height, screw-type adjustment, or stepless adjustment to suit different needs.

Desk Side Hooks

Bottle-neck hole and hook design allow hanging water bottles and other items for practical use.

GS Series

Student Desk & Chair

Single Desk Model:GS0102B

Size: 650×450×670-760 mm/25.59 × 17.72 × 26.38-29.92 in

Chair Model:GS0402

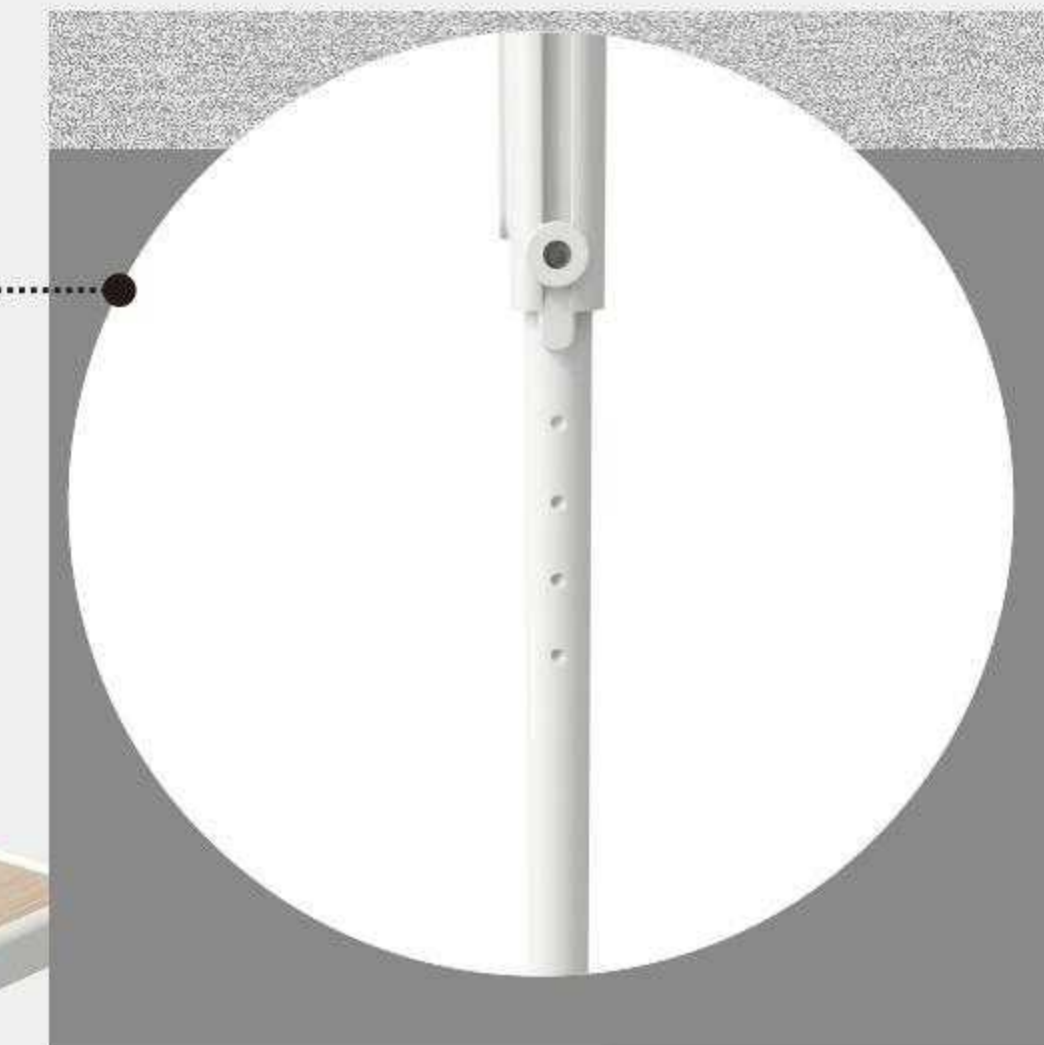

Size: 415×410mm/16.34 × 16.14in
Seat Height : 380-440mm/ 15.0-17.3 in

Multiple Seat Styles Available

Fits various classroom styles and functional needs with flexible configurations.

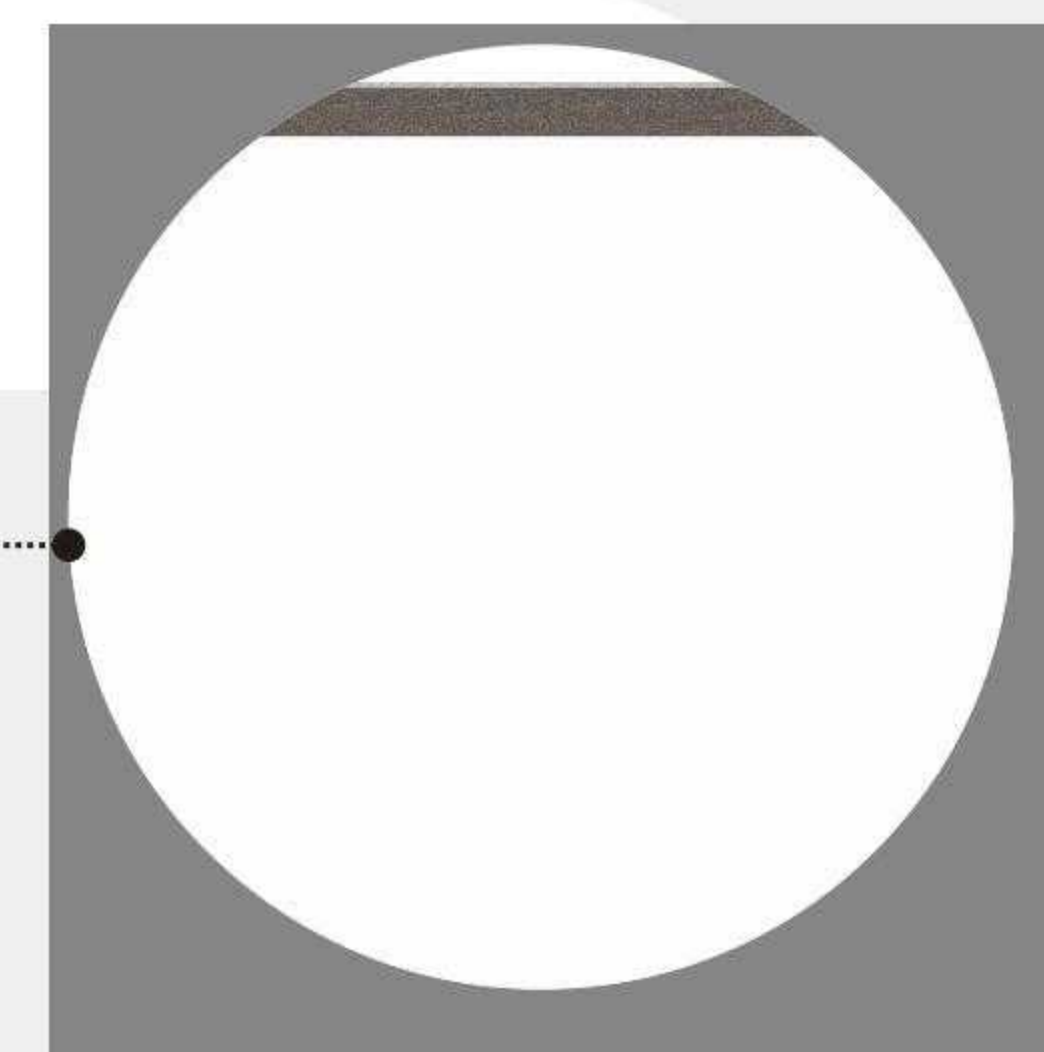

Screw-type Height Adjustment

Precisely adapts to students of different heights, ensuring long-lasting use and excellent stability.

L-shaped Desk Legs

Provides more legroom while keeping the desk steady and wobble-free.

Optional Metal Storage Basket

Adds extra storage space for books and personal items, keeping the desktop tidy.

KL Series

Student Desk & Chair

Single Desk Model:KL0101

Size: 650×450×670-760 mm/25.59 × 17.72 × 26.38-29.92 in

Chair Model:TL0402

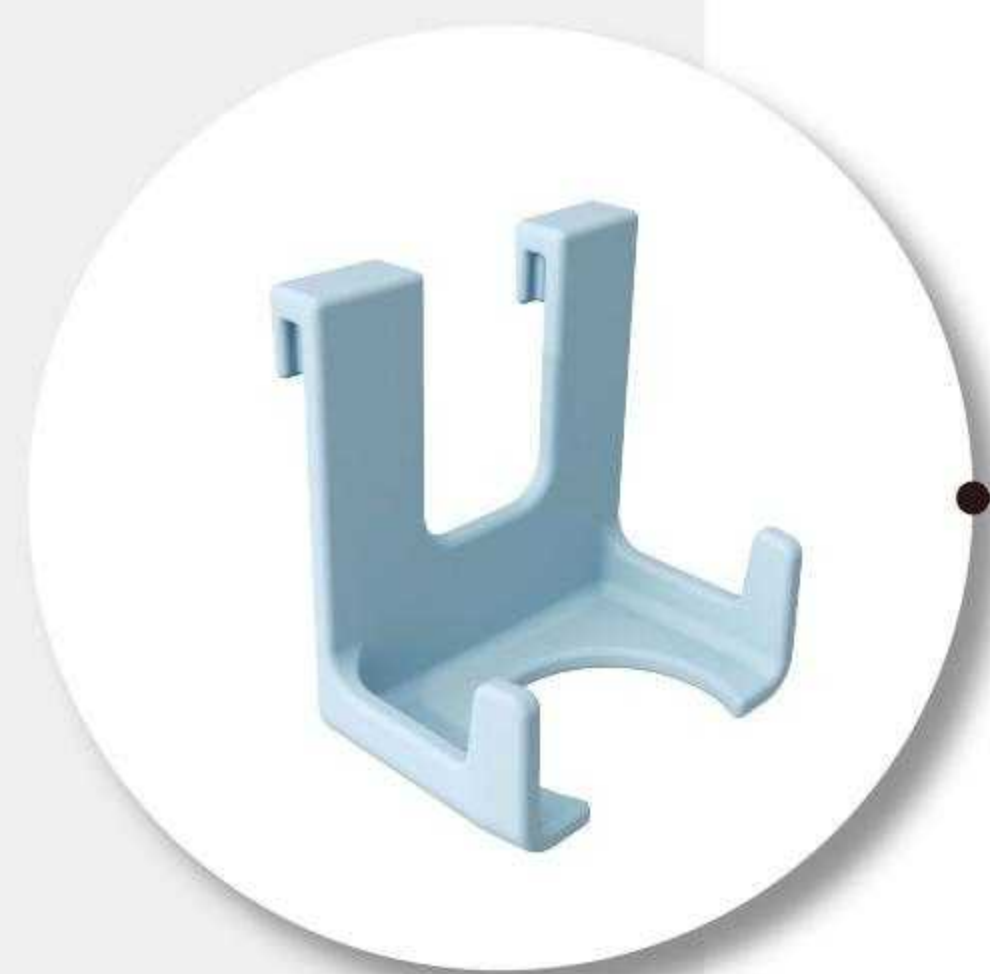

Single Desk Size: 465×445mm/ 18.3×17.51 in
Seat Height: 440mm/17.32in

Single Desk Model:KL0102

Size: 800×400×670-760 mm/31.50 × 15.75 × 26.38-29.92 in

Side Hooks

Convenient hooks for backpacks and bags to keep classrooms tidy.

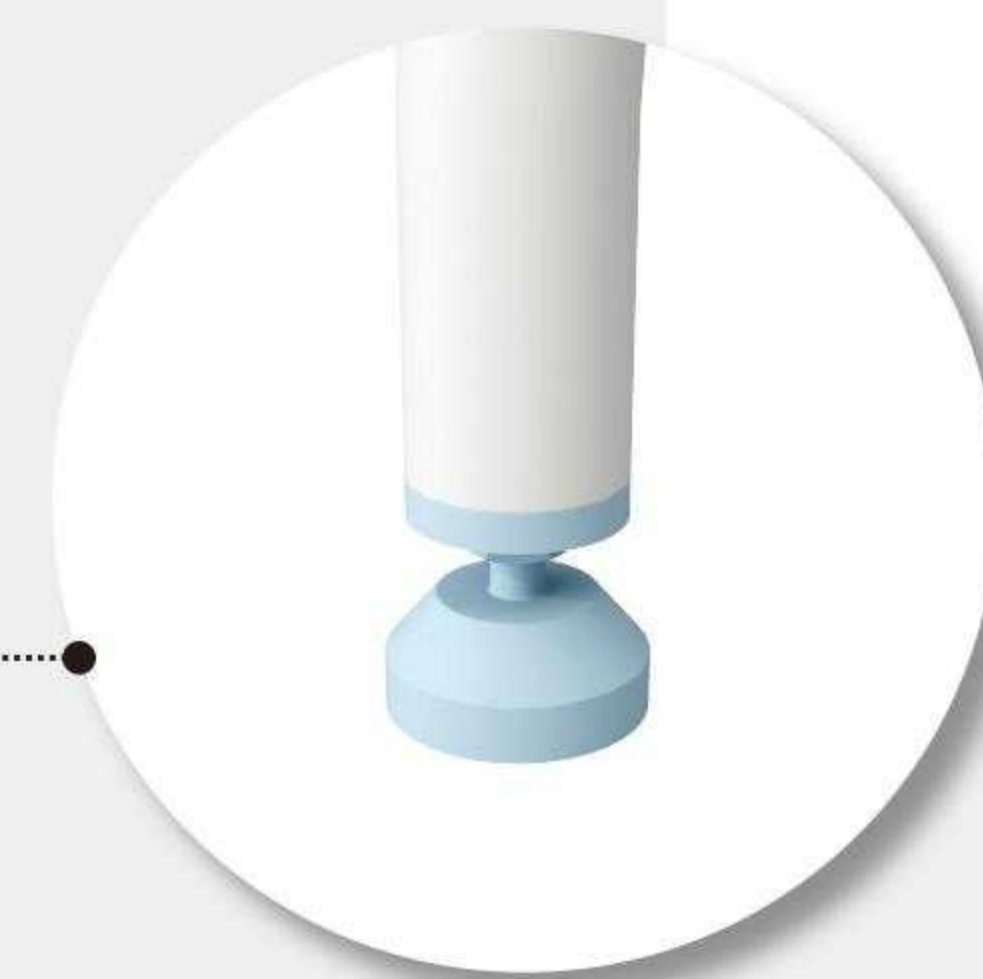

Screw-type Height Adjustment

Precisely adapts to students of different heights, ensuring long-lasting use and excellent stability.

A-shaped desk legs

Provide enhanced stability and a distinctive design.

Adjustable foot pads

Compensate for uneven floors and keep the desk stable.

DF Series

Student Desk & Chair

Single Desk Model:DF0102B

Size: 650×450×670-760 mm/25.59 × 17.72 × 26.38-29.92 in

Chair Model:DF0402

Size: 420×400mm/16.54 × 15.75in
Seat Height : 380-440mm/ 15.0-17.3 in

Multiple height adjustment options

Fixed height, screw-type adjustment, or stepless adjustment to suit different needs.

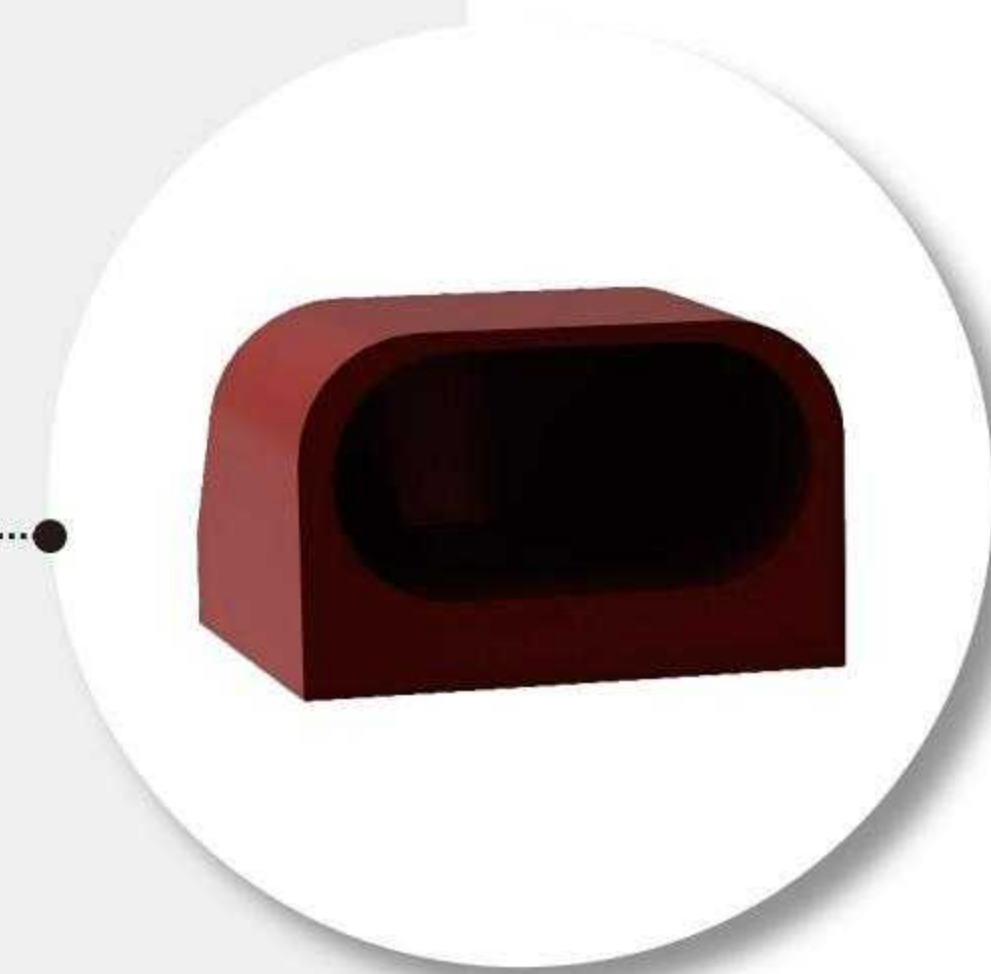

Optional desk storage basket

Adds extra space for books and personal items.

I-shaped desk and chair legs

Provide strong support and stability.

Silent, anti-slip foot pads

Keep desks stable and wobble-free while reducing noise.

Collaborative Tables

Modular · Flexible · Interactive

NM Series

Collaborative Table

Model:NM0101

Size: 680×680×760 mm/26.77×26.77×29.92 in

Model:NM0102

Size: 950/400×500×760 mm/37.40/15.75×19.69×29.92 in

Model:NM0103

Size: 950/400×500×760 mm/37.40/15.75×19.69×29.92 in

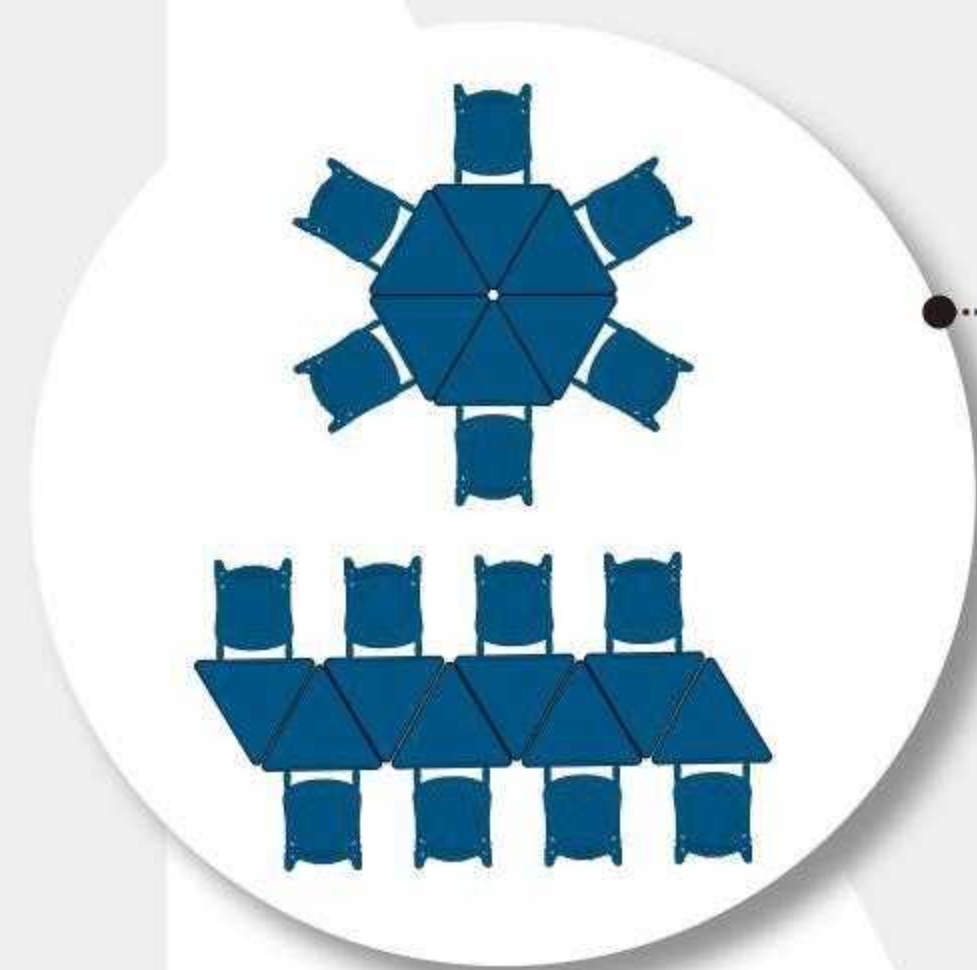

Multiple Shapes

Available in trapezoid, triangle, and hexagon options to fit different teaching needs.

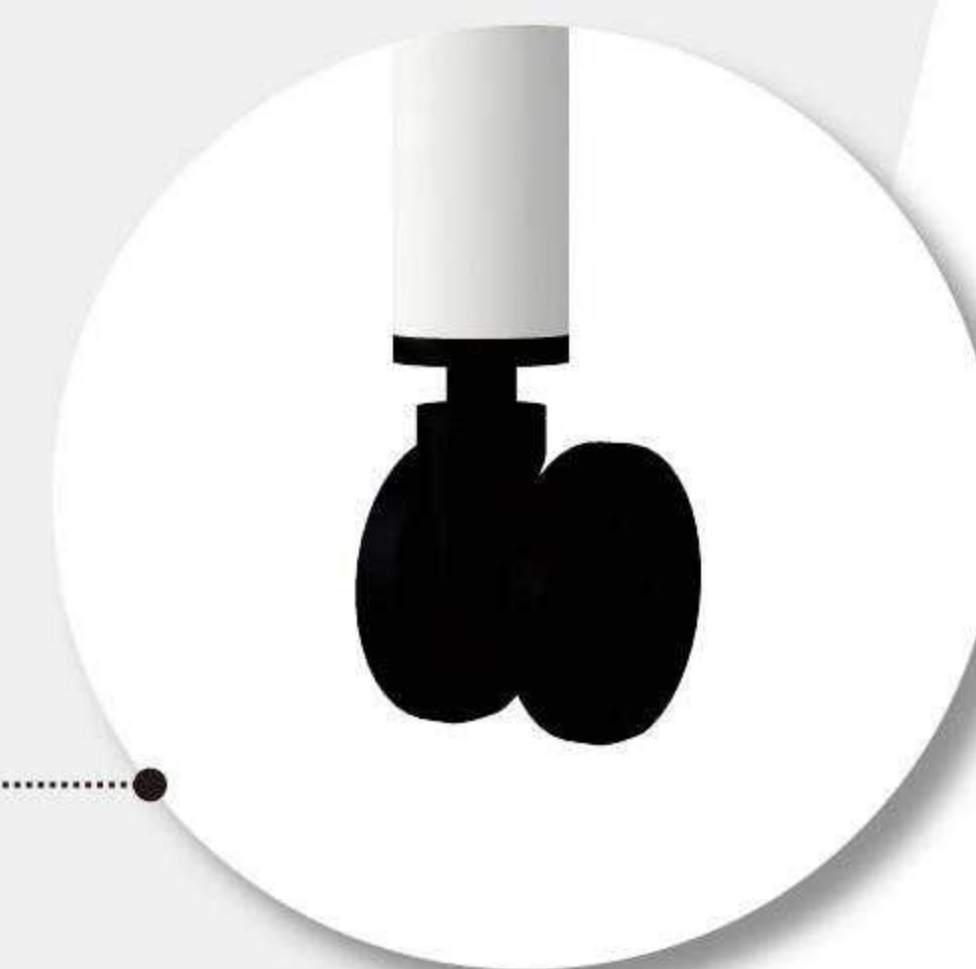

Durable & Safe

Sturdy steel-wood structure with rounded edges ensures long-lasting use and student safety.

Flexible Layouts

Easily combined into clusters, rows, or circles to support diverse learning scenarios.

Optional Silent Casters

Smooth and quiet mobility with lockable swivel casters for easy classroom reconfiguration.

PL Series

Collaborative Table

Table Model: PL0501W

Size: 800/250×600×760 mm/31.50/9.84×23.62×29.92 in

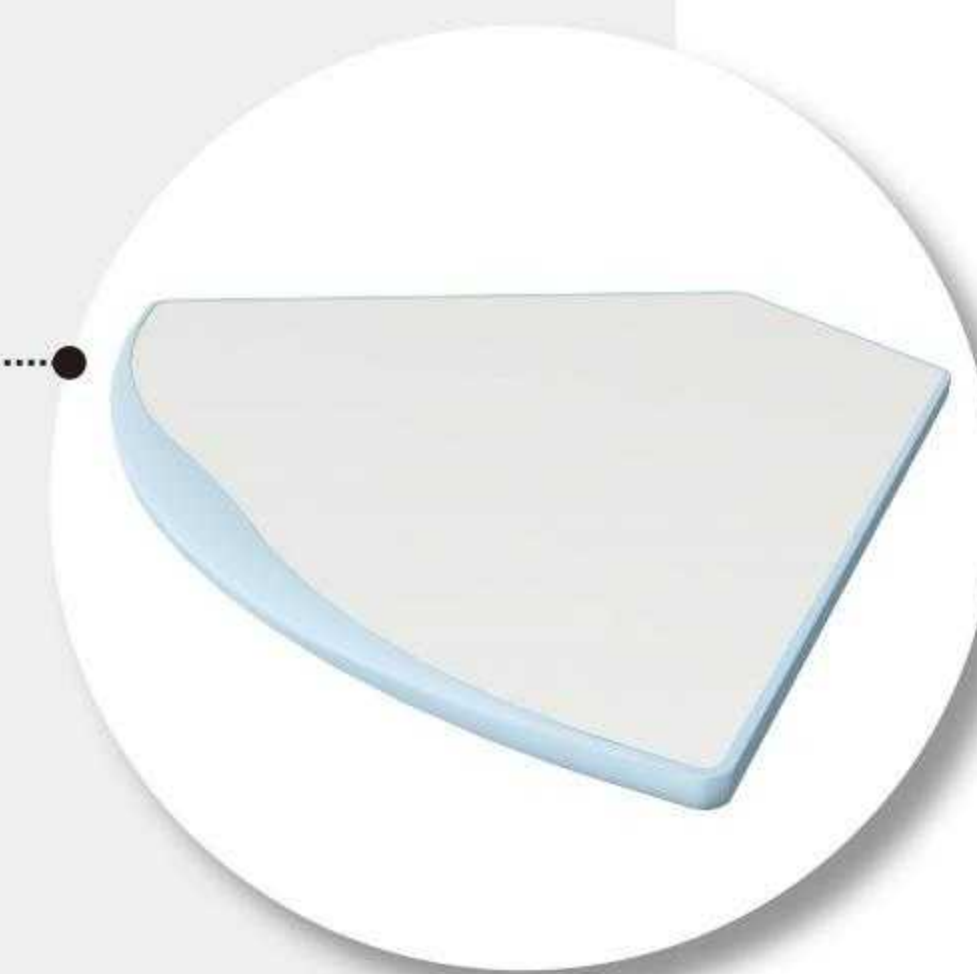

Chair Model: PL0401

Size: 465×445mm/ 18.3×17.51 in
Seat Height: 440mm/17.32in

Flip-Top & Stackable

Flip-top design with built-in locking mechanism allows easy stacking and flexible classroom layouts.

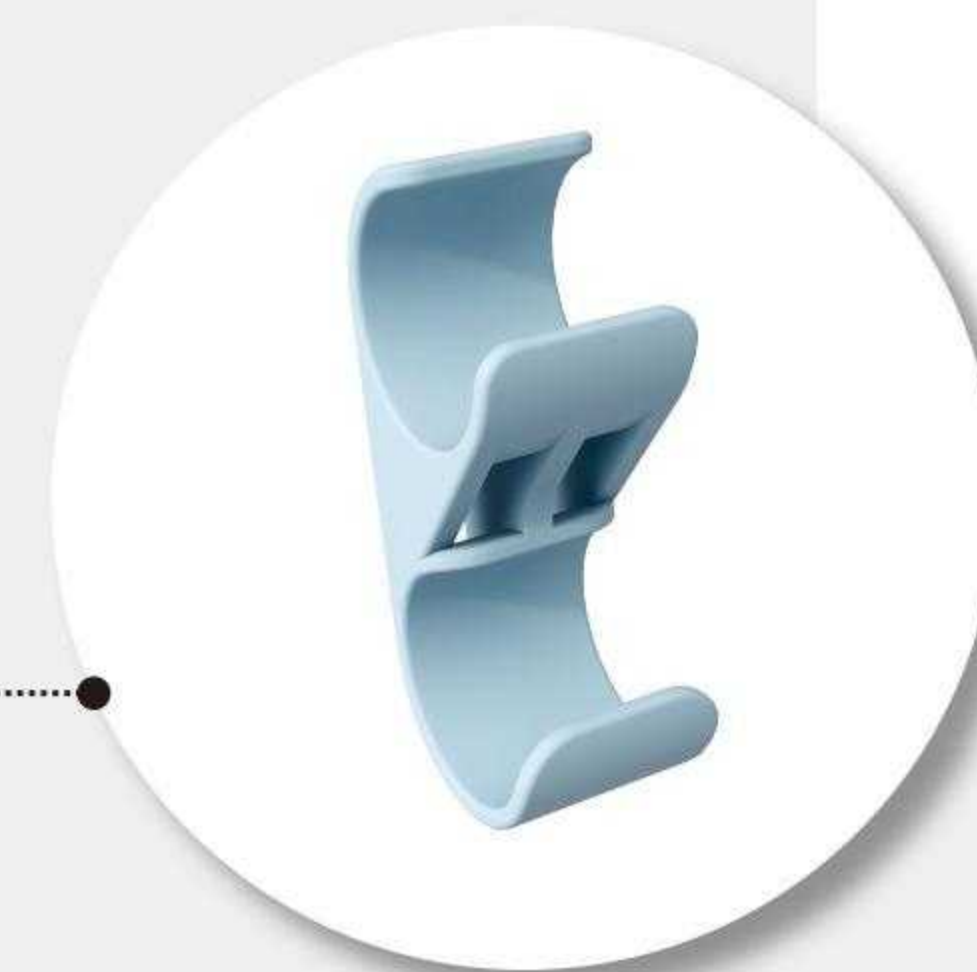

Unique Fan-Shaped Top

Ergonomically designed fan-shaped tabletop enhances reach and promotes student interaction.

Student-Friendly Safety

Rounded edges, smooth curves, and ventilated chairs minimize risk while improving comfort.

Durable & Premium Materials

E0-grade particle board, steel frame, PP edging, and ABS components ensure long-lasting, high-quality use.

CM Series

Collaborative Table

Table Model: CM0101

Size: 805×580×760 mm/31.69×22.83×29.92 in

Table Model: CM0102

Size: 848×605×760 mm/33.39×23.82×29.92 in

Flip-Top & Stackable

Flip-top design with built-in locking mechanism allows easy stacking and flexible classroom layouts.

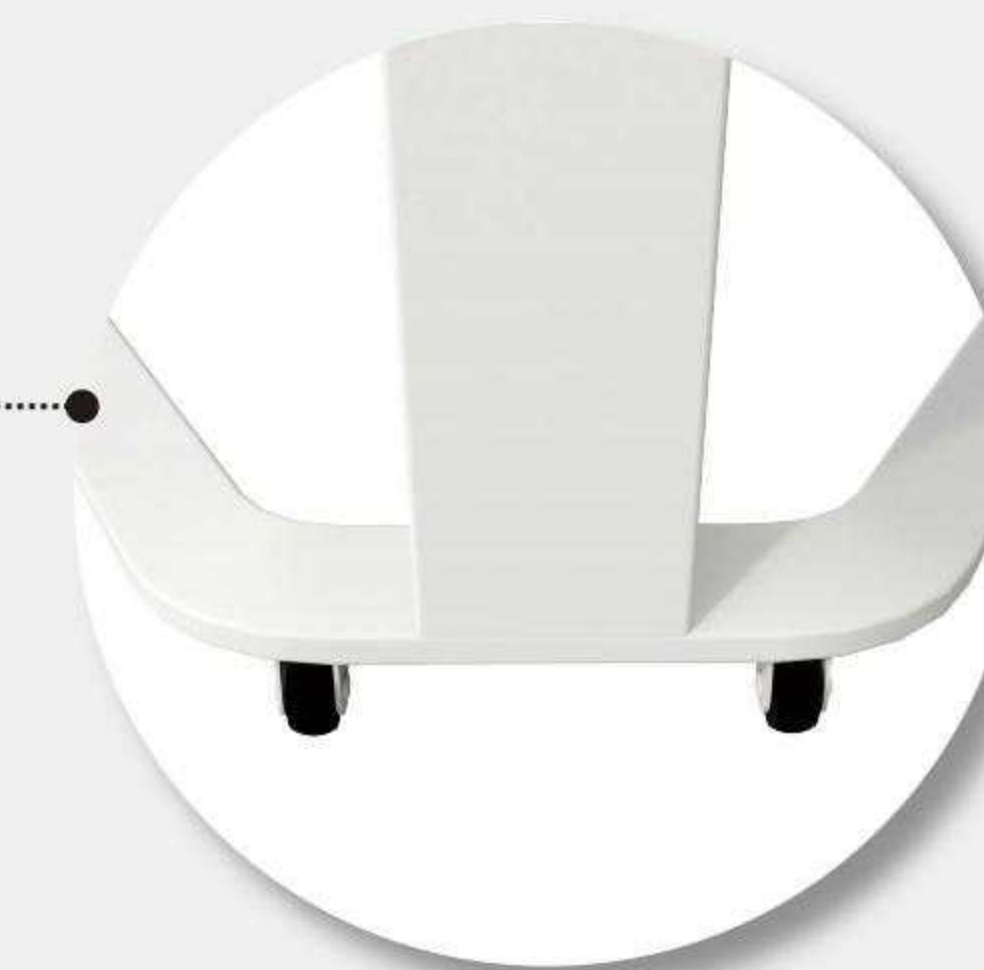

Integrated Practical Features

Built-in cup holder, metal handle, and front book/phone rest enhance classroom convenience and organization.

Durable & Flexible Structure

High-quality steel frame, anti-aging PP feet, and hidden casters ensure stability, mobility, and long-lasting use.

Smooth & Hidden Casters

Semi-hidden, high-quality casters make tables easy to move, rearrange, and assemble into clusters.

Lecture Hall Seating

Stable. Space-Saving. Built for Lecture Halls

MT Series

Lecture Hall Seating

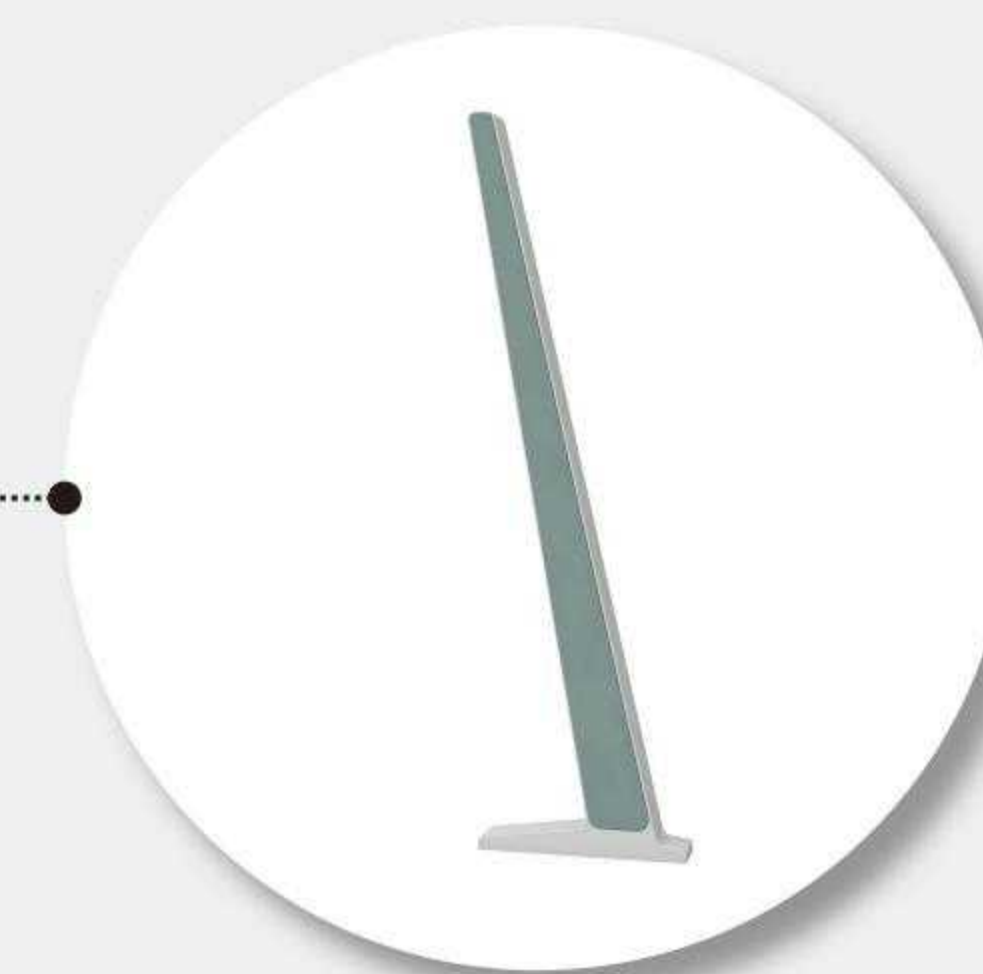

xiandaihua zhinengkongzhi
xiandaihua zhine
xuexizhineng

Eco-friendly & Safe Desktop

E0-grade particle board with PP injection-molded edging and rounded corners for safety, meeting international environmental standards.

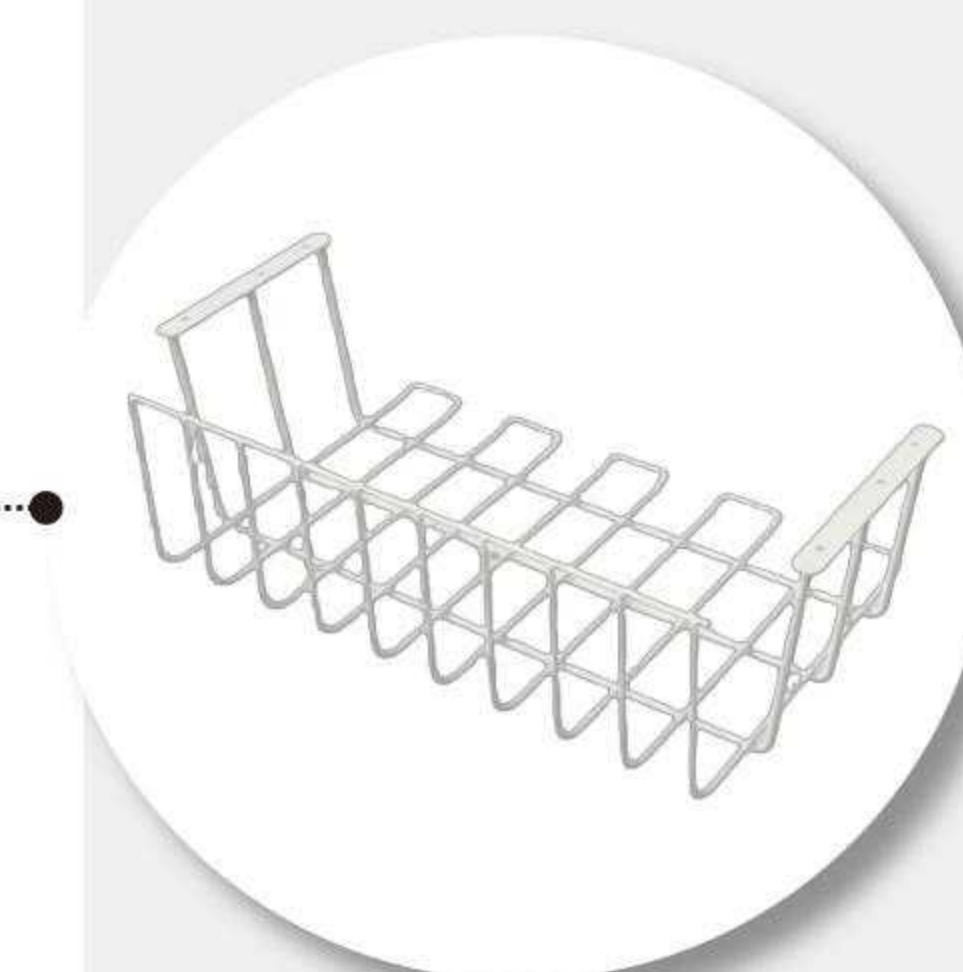

Stable Heavy-duty Structure

Aluminum alloy legs and columns with reinforced cross beams, anti-oxidation coating for strong load-bearing, corrosion resistance, and long-term durability.

Silent Auto-return Mechanism

Damping system ensures smooth, quiet seat flipping with automatic return, saving aisle space and maintaining an orderly classroom environment.

Practical Storage Design

Under-desk steel wire basket and integrated pen groove keep study materials organized and classrooms tidy.

DE Series

Lecture Hall Seating

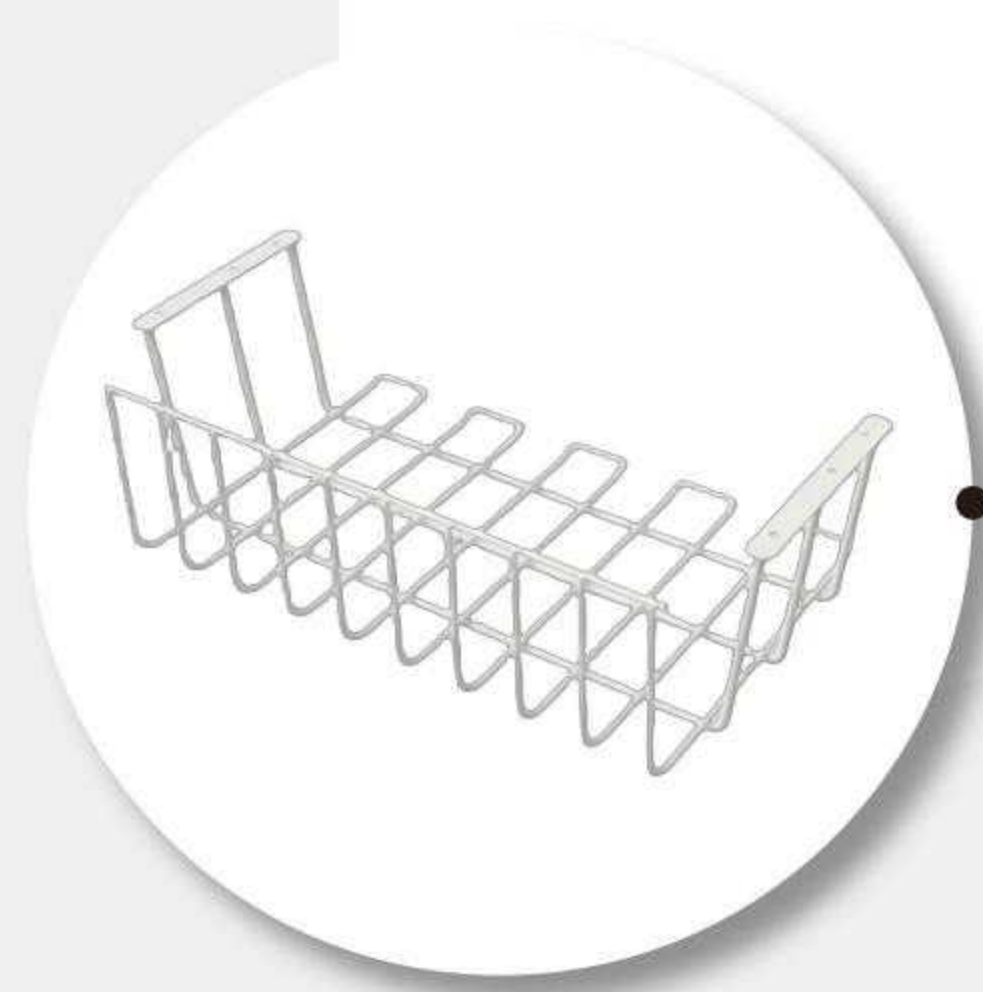

Silent Auto-return Seat

Multi-layer board seat with damping mechanism ensures smooth, quiet return, durable and low-maintenance.

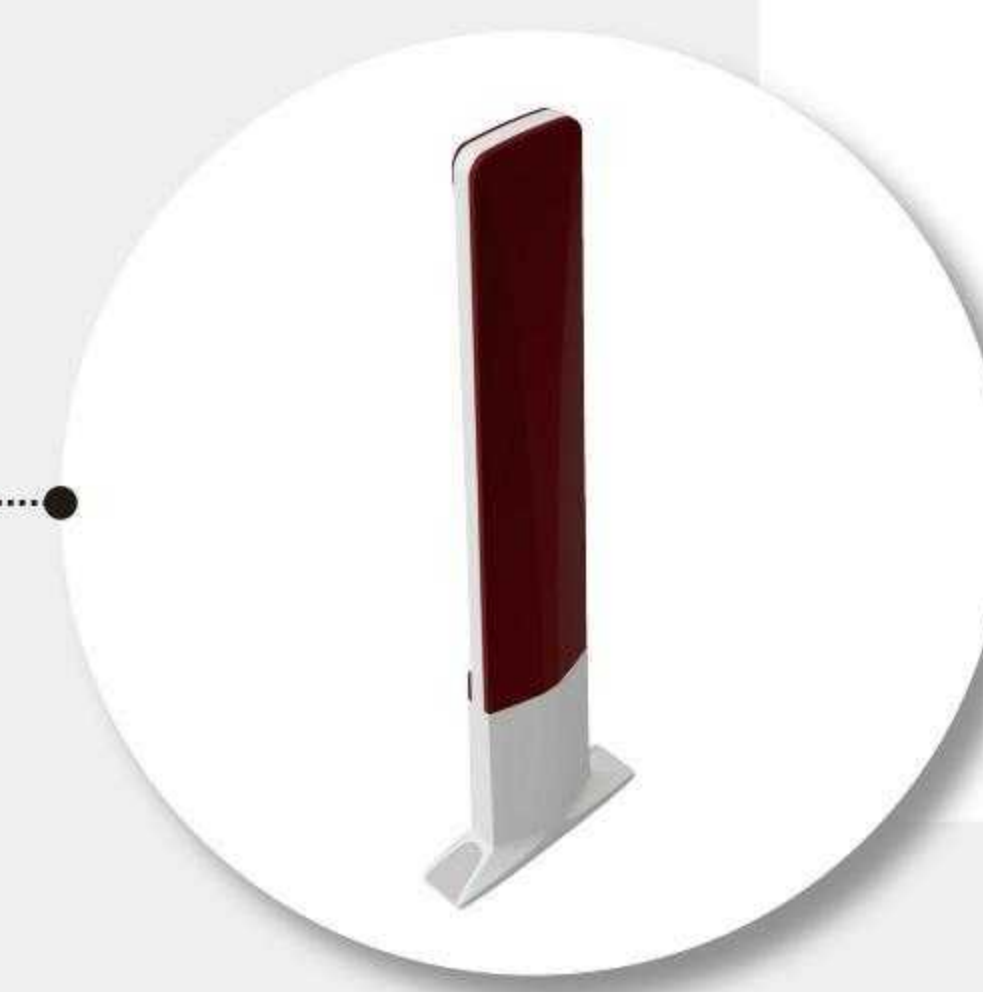

Eco-friendly & Safe Desktop

E0-grade particle board with one-piece PP injection-molded edging and rounded corners for safety. Integrated handle makes moving desks effortless, meeting international environmental standards.

Practical Storage Design

Under-desk steel wire basket and integrated pen groove keep study materials organized and classrooms tidy.

Stable Heavy-duty Structure

Unique sail-shaped aluminum legs and columns with reinforced cross beams, anti-corrosion coating for excellent stability, long-term durability, and easy cleaning.

FE Series

Lecture Hall Seating

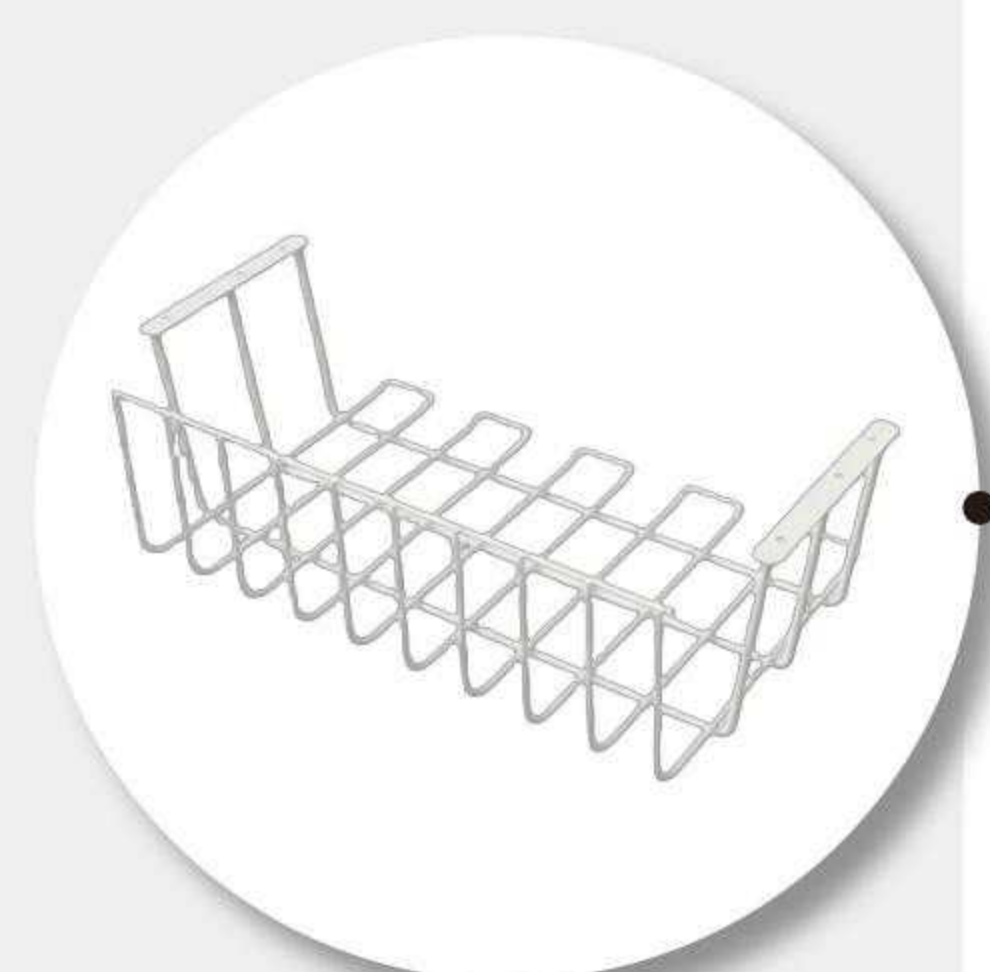

Quiet & Comfortable Seat

Ergonomically designed multi-layer board seat with silent auto-return, providing lasting comfort and low-maintenance convenience.

Eco-friendly & Safe Desktop

E0-grade particle board with one-piece PP injection-molded edging and rounded corners for safety. Integrated handle makes moving desks effortless, meeting international environmental standards.

Practical Storage Design

Under-desk steel wire basket and integrated pen groove keep study materials organized and classrooms tidy.

Reinforced Safety Back Panel

Back panel reinforced with aluminum strip, reducing sharp edges and enhancing classroom safety for students.

TM Series

Lecture Hall Seating

Ergonomic Curved Backrest

Curved chair back supports proper posture, providing comfort and promoting healthy seating habits for students.

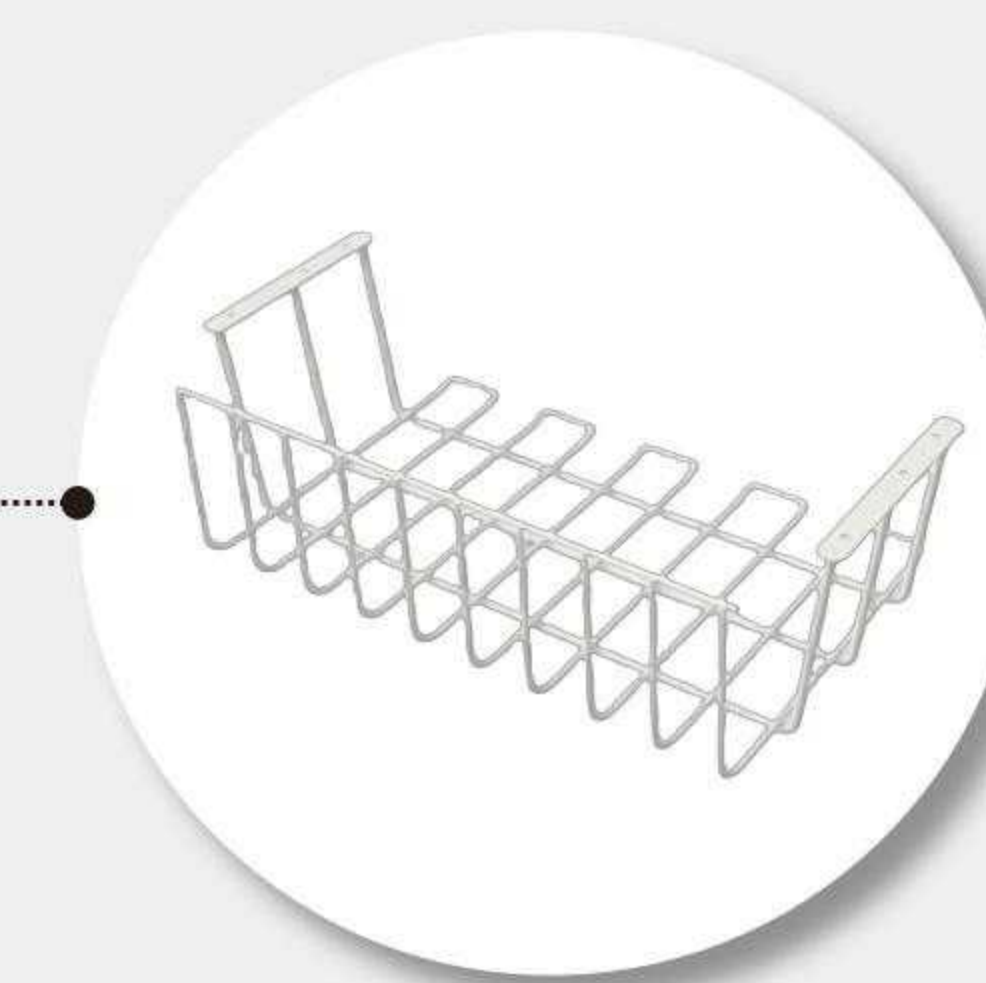

Antibacterial Desktop

E0-grade particle board with one-piece injection-molded edging, smooth surface reduces germs and ensures a hygienic study environment.

Stable & Durable Structure

High-strength steel frame with reinforced supports ensures long-lasting stability, even under heavy classroom use.

Practical Storage Design

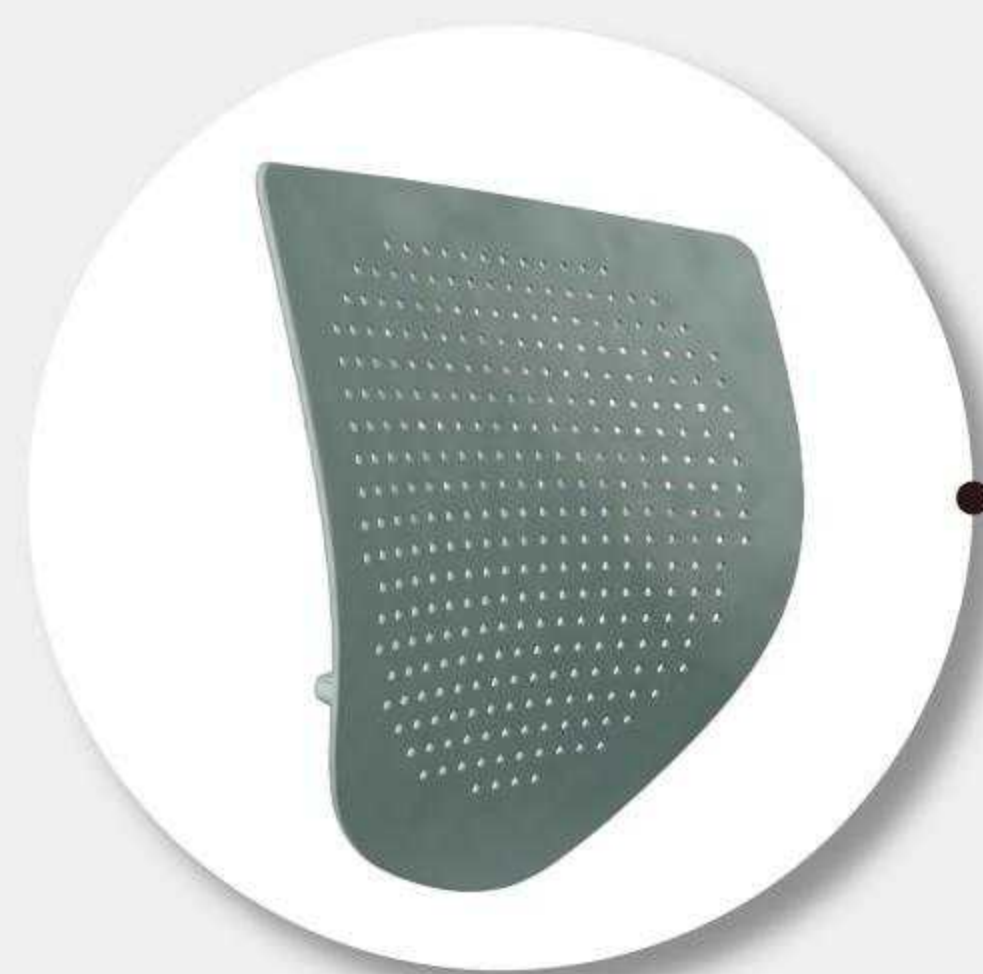

Under-desk steel wire basket and integrated pen groove keep study materials organized and classrooms tidy.

FL Series

Lecture Hall Seating

Ergonomic Comfort Design

Foldable seat and backrest follow natural body curves with smooth edges, ensuring comfortable seating for long hours.

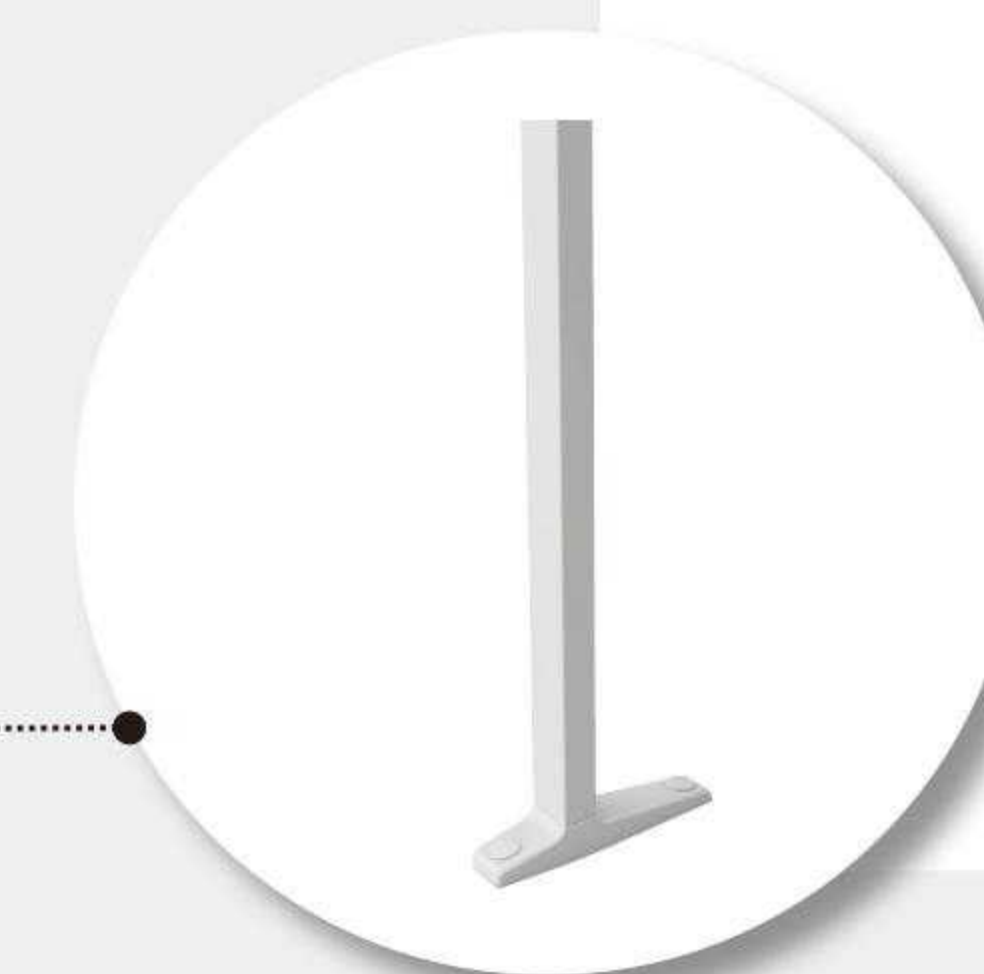

Thickened Eco-Friendly Desktop

25mm particle board with seamless injection-molded edges and rounded corners — safe, durable, and long-lasting.

Smart Flip & Space Efficiency

Linked flip-up seat and backrest mechanism, smooth to operate and space-saving — ideal for lecture halls and stepped classrooms.

Sturdy & Durable Structure

Heavy-duty steel frame with die-cast aluminum feet for superior stability and long service life. Open-wire bookshelf design for easy storage and cleaning.
